FORWARD

The Nevada Department of Public Safety presents the twelfth annual report of *Crime and Justice in Nevada 2005*.

In August 2005 this country experienced the costliest and one of the deadliest hurricanes in the history of the United States. Hurricane Katrina was possibly one of the largest natural disasters of it's kind to hit the US in recorded history. Katrina caused catastrophic damages to the coastline of Louisiana, Mississippi and Alabama. In early September 2005, 101 statewide law enforcement employees including 36 from DPS volunteered to assist local law enforcement in the aftermath of Katrina. They were deployed for over two weeks assisting local agencies from Harrison and Jackson Counties in Mississippi. The pictures used throughout this book were taken by DPS employees during this time. We would like to express our sincere thanks to DPS for allowing us to use these pictures.

We wish to express our great appreciation to each agency for their dedication in collecting this data, in analyzing it for accuracy and reasonableness, and the timeliness in which they provided it to the Department.

Collecting, analyzing and distributing these statistics play a major role in the evaluation of the data. The success of our publication is dependent upon the accurate and timely information we receive from the law enforcement communities in Nevada.

We recognize these entities for their dedication in keeping our visitors as well as our residents, safe in Nevada.

If you have any questions or comments regarding this publication, please contact the Uniform Crime Reporting Unit of the Records and Identification Bureau, Records and Technology, Department of Public Safety at (775) 687-1600. This publication is available on-line at www.nvrepository.state.nv.us.

APPRECIATION

The success of the Nevada Uniform Crime Reporting Program hinges on the complete, accurate and timely participation of all of Nevada's law enforcement agencies. The program was established with the support of criminal justice and law enforcement agencies statewide in July of 1991 (NRS 179A.078).

Although responsibility for actual development and execution of the program was vested in the Nevada Department of Public Safety, the individuals at the municipal, county and state levels who submit the raw data are the entities ultimately critical to viability. Accordingly, we recognize the following dedicated people.

INTRODUCTION

The Uniform Crime Reporting (UCR) Program is a nationwide cooperative effort of over 17,000 city, county, and state law enforcement agencies voluntarily reporting data on crime. The monthly contributions to Nevada's current program, with 37 local law enforcement agencies reporting full-time, represent a solid beginning in establishing an effective statewide criminal justice information system (CJIS). We invite remaining non-participating local law enforcement agencies to join their peers in this effort and to participate in this important program.

Inquiries concerning Uniform Crime Reporting may be directed to:

**Department of Public Safety

Tel (775) 687-1600 x235**

Ideally, UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, and corrections) to form an integrated system for the exchange of vital management information. The availability of such data will enhance law enforcement's proactive response to crime and justice in Nevada. The Nevada Department of Public Safety has administered the UCR Program as a statewide, standardized method of collecting statistics on crime as it is reported to law enforcement. The UCR program also produces a reliable set of criminal statistics for use in law enforcement administration, operation, and management. Additionally, Nevada's statistics are forwarded monthly to the Federal Bureau of Investigation for inclusion in its annual report Crime in the United States.

We hope UCR data will be used over the years as a leading social indicator. With this annual report, Nevada's citizens can look to UCR as the primary information source on the nature and extent of crime in Nevada. Criminologists, sociologists, legislators, state and local planners, the media, and academicians can use the statistics for wide and varied research, planning, as well as for other applications.

CRIME FACTORS

Statistics gathered under the Uniform Crime Reporting Program are submitted by the participating law enforcement agencies of Nevada and represent a spectrum of crime on statewide, county, and municipal levels. Awareness of the presence of unique variables is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime developments of the community. Comparison of crime figures between communities should not be made without first considering individual factors present in each community. Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role as to its detection and suppression. As stated by the President's Commission on Law Enforcement and Administration of Criminal Justice in its report, The Challenge of Crime in a Free Society, (Page 92):

But the fact that the police deal daily with crime does not mean that they have unlimited power to prevent it, or reduce it, or deter it. The police did not create and cannot resolve the social conditions that stimulate crime. They did not start and cannot stop the convulsive social changes that are taking place in America.

They do not enact the laws that they are required to enforce, nor do they dispose of the criminals they arrest. The police are only one part of the criminal justice system; the government is only one part of society. Insofar as crime is a social phenomenon, crime prevention is the responsibility of every part of society. The criminal process is limited to case-by-case operations, one criminal or one crime at a time.

Following are some conditions that will, by type and volume, affect crime that occurs from place to place.

- Size and density of community population and the degree of urbanization in the surrounding area*
- Compositions of population with particular reference to youth concentration*
- Economic status of population, median income and job availability*
- Relative stability of population, including commuters, seasonal, and other transient types*
- Modes of transportation and area highway systems*
- Climate, including seasonal weather conditions*
- Cultural conditions such as educational, recreational, and religious characteristics*
- Standards governing appointments to the police force*
- Policies of prosecuting officials, the courts, correctional and parole/probation officials*
- Effective strength of law enforcement agencies*
- Attitude of the public toward reporting crime and participation in the prosecution of offenders*
- The administrative and investigative efficiency of local law enforcement agencies, including the degree of adherence to crime reporting standards*
- Organization and cooperation of adjoining and overlapping police jurisdictions*

The primary goal of the UCR program is to identify crime and related problems. Statistics in this publication should not be used to measure or to evaluate workloads and results of individual contributing departments. While most police agencies are collectively viewed as crime-fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and different community factors that normally affect crime statistics, no conclusions regarding individual departments should be made without consulting directly with the agency being analyzed.

Crime rates in this publication are based on the resident population of the state and its subdivisions as established and published by the Nevada Department of Taxation and the Nevada State Demographer. Population estimates are revised annually. Seasonal population figures are too inaccurate and fluctuate too rapidly to be used in the determination of crime rates. Most Nevada communities experience rather wide seasonal population fluctuations due to the nature of the state's major industries, gaming and tourism. Accordingly, actual crime rates per thousand reported here may appear higher than might be expected for a community of comparable size without substantial fluctuations. This should not deter police administrators from using the data for planning and administrative purposes. Local seasonal population data is available which can be utilized for further statistical refinements.

Additionally, readers are cautioned not to make direct comparisons between crime rates reported for Nevada communities and those of communities of similar size in other states without first carefully analyzing and applying local modifying factors.

POTENTIAL USES OF UCR DATA

The Nevada program is unique among similar state programs as it is dedicated to doing more than just gathering statistics. The program is dedicated to providing statistical support services to its contributors and to produce a variety of reports, or crime profiles, on an as-needed basis. These crime profiles will set the stage for extensive use of the data by police administrators and other criminal justice agencies.

Persons reading this report may ask, "How good are Uniform Crime Reports and how can they be used?" Initial responses that come to mind may be limited, but as the information is examined more closely, many and varied uses are discovered. Foremost is keeping the public informed as to the volume and nature of crime, that they may judge and act accordingly. In actuality, UCR is a multi-faceted vehicle of many uses. Here are a few, but by no means all such uses, as they relate to different groups and agencies.

Law Enforcement Contributors

Administrative information relating to:

1. Budget - need and justification
2. Staffing - number needed relating to state average number of employees vs. population and crime rate
3. Department composition - Patrol, Administration, Jail, Laboratory, Detective Division, Juvenile
4. Identification of specific problem crimes

5. Disbursement of personnel and shifts in accordance with the crime picture of individual communities with avoidance of duplication of services in cases of concurrent jurisdiction
6. Training - according to crime problem prioritization
7. Equipment procurement - by justified need
8. Selective enforcement - by crime volume, particular times, and seasons through UCR information
9. Crime Profiles - identification of problems unique to individual communities
10. Long-range Planning - as anticipated by crime trends

Governor and Legislature

1. Broad, accurate picture of crime in Nevada by location, volume, type, and rate, as reported and derived from records of all participating enforcement agencies
2. Guide to valid funding needs of special interest groups and their requests for funding of the same
3. Need for more or fewer specialized programs
4. Identification of crime trends and their relationship(s) to training, courts, corrections, and other criminal justice agencies
5. Identification of various social problems relating to drugs, alcohol, juveniles and rehabilitation
6. Effectiveness of various social programs related to drugs, alcohol, juveniles and rehabilitation

Courts - Prosecution

1. Valuable general research information on crimes within the areas being served
2. Crime trend information
3. Identification of specific crimes to be considered in the prosecutorial and judicial processes

Press

A factual source for use in reporting crime and socially-related problems

Social Agencies

1. Identification of problem areas for concentration of remedial activities
2. Application for general evaluation of program effectiveness

Educational Institutions

Educators at all levels can use UCR data for various studies, budget preparation, and planning.

The above listed are a few possible uses, undoubtedly many more exist. The larger the UCR database becomes, the clearer its value will become. Since effective problem solving begins with problem identification, UCR will continue to be meaningful for years to come.

Nevada UCR believes the data provided here can serve as a catalyst for some departments to establish modern record systems for the first time. With other agencies it may spur emplacement of needed system upgrades. This will enable administrators at the chief and sheriff levels to be able to take a renewed look at their departments, potentially effecting beneficial internal operational changes. Awareness by subordinate personnel that their reports and arrest information are being used, not just filed away, will result in better and more comprehensive reporting. Finally, the periodic release of crime information to the general public will keep the crime problem in its proper perspective.

REPORTING PROCEDURE

In Nevada's Uniform Crime Reporting Program, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting Section of the Records and Technology Division in Carson City. The UCR Section, to maintain data quality and uniformity, furnishes to the contributing agencies continuous training and instruction in Uniform Crime Reporting procedures. All contributors are also given data submission guidelines, report forms, and a State of Nevada UCR Guide that outlines, in detail, procedures to score and to classify offenses. The guide illustrates and discusses the monthly and annual report forms.

A centralized record system is vital to the sound operation of any law enforcement agency. It is an essential element for crime reporting. Trained UCR personnel at the state level assist contributors in following established reporting procedures.

Law enforcement agencies (state, county and municipal) report the number of offenses that become known to them in the following crime categories:

- 1. Criminal Homicide**
 - a. Murder and Non-Negligent Manslaughter
 - b. Manslaughter by Negligence (not an index crime)
- 2. Forcible Rape**
 - a. Rape by Force
 - b. Attempts to Commit Forcible Rape
- 3. Robbery**
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon
 - d. Strong-Arm (Hands, Fists, Feet, etc.)
- 4. Assault**
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon
 - d. Hands, Fists, Feet, etc, Aggravated
 - e. Hands, Fists, Feet, Not Aggravated (not an index crime)
- 5. Burglary**
 - a. Forcible Entry
 - b. Unlawful Entry - No Force
 - c. Attempted Forcible Entry
- 6. Larceny-Theft (except motor vehicle theft)**
- 7. Motor Vehicle Theft**
 - a. Autos
 - b. Trucks and Buses
 - c. Other Vehicles
- 8. Arson**

In addition, the agencies submit the number of arrests recorded, by sex and age, for 21 other "Part II" offenses. Descriptions of these offenses are provided under the offense classification section.

Another facet of the UCR Program involves the collection of "hate crimes". In 1990, the President of the United States signed into law the "Hate Crime Statistics Act of 1990". The data identifies crimes that manifest evidence of prejudice based on race, religion, sexual orientation, ethnicity, and physical or mental disabilities.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are subtracted from the actual count. The number of "actual offenses known" in these crime categories is reported to the Nevada UCR Section whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect.

Other data configurations which contributing agencies tally through the UCR system are as follows:

- Number of crimes cleared by arrest or exceptional means
- Number of crimes cleared involving persons under age 18
- Number of enforcement officers killed or assaulted
- Type and value of property stolen and recovered

- Number of arrests for all criminal acts (except traffic violations), broken out by arrestee age, sex and race
- Number of sworn and civilian enforcement personnel employed by agency type

HEIRARCHY RULE

The experience of law enforcement agencies handling UCR data shows that, for the most part, offenses of law occur singly as opposed to many being committed simultaneously. In these single-offense situations, it must be decided whether the crime was one of the Index Offenses, and if so, it is scored accordingly. However, if several offenses are committed at the same time by a person or a group of persons, a different approach must be used in classifying and scoring. As a general rule, a multiple-offense situation requires classification of each of the offenses and identification of those that are Part I crimes. The Part I offenses involved must then be located within their ranked list, which goes from most to least priority. The offense, which is highest on the list, is scored. The other offenses involved in the incident are ignored. The Hierarchy Rule, which requires counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts.

VERIFICATION PROCEDURE

Data uniformity and accuracy is of primary concern under this program. With coverage of approximately 37 reporting jurisdictions within the State of Nevada, the problems with attaining uniformity are apparent. Issuance of instructions and training of personnel within contributing agencies does not complete the role of the UCR Section. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness.

Clearance factors, recovery rates, and other elements are scrutinized and changes are suggested to the contributors where needed. In the instance of minor mathematical corrections, the contributing agency is either contacted by mail, fax, telephone, e-mail or in-person visitations made by qualified UCR Program personnel.

The possibility of report duplication requires constant verification through internal consistency checks. If duplication is suspected, the contributing agency is immediately contacted and the matter is resolved in accordance with guidelines. Continual analysis of reports is ongoing to assist contributors, and to maintain the quality necessary for a factual and successful program. In addition, an FBI Quality Assurance Group periodically visits contributors to cooperatively assist in necessary auditing of records and reporting methods.

Regardless of the extent of the quality control process employed by the Uniform Crime Reporting Section, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting. We are especially grateful to the UCR support staff in each contributing agency for their diligence and persistence, and for their constant attention to reporting policies and procedures.

STATEMENT OF POLICY FOR RELEASE OF UCR STATISTICAL INFORMATION

The following policies provide guidance concerning the release of UCR statistical information. All information to be released is approved by senior staff prior to being released.

1. Nevada UCR will publish reports reflecting crime in the state. The annual report will be distributed without charge to the governor, the state library, members of the legislature, the attorney general, law enforcement agencies and any agency or committee dedicated to law enforcement or criminal justice work. The report is available on a computer CD by request, or on the Criminal History Repository website.
2. UCR statistical monthly reports will be submitted to each participating agency. They will also be available on the web at www.nvrepository.state.nv.us.
3. Information contained in the published annual report may be released via telephone, letter, etc., to any interested party.
4. All requests for unpublished information should be directed, by letter, to the UCR Program Supervisor. These special requests will be honored only for the current reporting year.
5. Law enforcement agencies may receive interim, unpublished, specialized reports germane to their agency upon request.

PROFILE OF THE STATE OF NEVADA

This profile is presented to provide some general knowledge and facts about the State of Nevada. The information might assist users of this publication in understanding the environment in which reported crime incidence and arrest data occurred.

NEVADA FACTS AND FIGURES

---Nevada is the seventh largest state in the United States, covering 110,560 square miles. The state's long western border is shared with California, the most populous state in the Union. On its northern and eastern borders are the states of Oregon, Idaho, Utah, and Arizona. The state's longest distance from the northwest corner to the southern tip is approximately 600 miles. At the widest point it is nearly 350 miles.

---Nevada consists of seventeen counties, ranging in size from 153 square miles for the state capital of Carson City to over 18,000 square miles for Nye County, one of the largest counties in the United States.

---The geography of the state consists of rugged desert and mountain terrain, with the highest mountain peak (Boundary Peak in Esmeralda County) having an elevation of 13,146 feet above sea level and the lowest point on the Colorado River having an elevation of 490 feet.

---Nevada has a four-season climate, with wide variations between its northern and southern latitudes. Low temperatures in the north can go well below zero in the winter months, while high temperatures in the south can climb well over 100° Fahrenheit in the summer. It is the most arid state in the country, receiving an average of less than ten inches of precipitation annually.

---Of Nevada's total land area, 85.3% is controlled by the federal government. State and local governments control .3% and 1.6% falls under the jurisdiction of 22 American Indian Reservations. The United States military, which has a significant presence, has also reserved large areas.

---Nevada's population increased by over 54% between 1980 and 1990 (from 800,508 to 1,236,130) and by 60.0% from 1990 to 2000 (1,236,130 to 2,065,610). In July 2005 we had a state population of 2,518,870 (up 18.0% since 2000). The state has experienced the fastest rate of growth in the nation for the past several years. Due to these tremendous long-term increases, several communities have been hard-pressed to provide necessary infrastructures. This trend is expected to continue, although at a slightly lower rate. Despite this growth, Nevada remains one of the most sparsely populated states, with about 22 people per square mile. Fully 87% of the state's total population is located in the counties of Clark (1,796,380 – 71%) and Washoe (396,844 – 16%).

---The Nevada State Demographer-University of Nevada, Reno, estimates the following population composition for Nevada in 2005: White, 61.87%; Hispanic, 23.24%; African Americans, 6.86%; Asian, Pacific Islanders, 6.33%, American Indians, Eskimo, Aluet 1.33%. Age 4 and under, 7.0%, Ages 5-19, 20.8%, Ages 20-64, 60.5% and ages 65 and over, 11.6%. Males, 50.59%, and Females, 49.41%.

---Tourism and gaming are the state's largest industries. The gaming industry generated revenue of \$11,641,595,000 in 2005. Approximately 51,568,700 people visited in 2005. These and other interesting statistics are available at www.travelnevada.com in the section of "news," under "discover the facts". Of concern to Nevada is the rapid spread of gaming to other states and Indian reservations. The Las Vegas area has responded by expanding and building huge "destination" or "theme" resorts, catering to a broader spectrum of interests.

---This is a substantial ongoing effort to diversify Nevada's economy. Over the past decade, hundreds of out-of-state firms have relocated to Nevada and thousands of new businesses have opened.

---Nevada is the largest gold producer in the United States and ranks in the top ten in the world. The bulk of this mining boom has occurred within the past fifteen years and has primarily taken place in the rural northern part of the state.

The crime clock should be viewed with care. Being the most aggregate representation of UCR data, it is designed to convey the annual reported crime experience by showing the relative frequency of occurrence of the Index Offenses. This mode of display should not be taken to imply regularity in the commission of the offenses; rather, it represents the annual ratio of crime to fixed time intervals.

CRIME IN NEVADA 2005 - HIGHLIGHTS

CRIME RATE

The Nevada Crime Rate is based on the occurrence of an index offense per 1,000 residents of the state. Municipal and county rates are based on their individual populations. The state crime rate for 2005 was 46.77 per 1,000. The comparable rate for 2004 was 44.60. The state population utilized was 2,518,870 the latest available estimate for 2005 from the State Demographer, Bureau of Business and Economic Research, University of Nevada, Reno.

INDEX OFFENSES

Law Enforcement reported 117,813 Index Offense in 2005, an increase of 4,524 offenses (3.84%) from the 113,289 offenses reported in 2004. Nevada's ten-year average for total index offenses (1996-2005) was 99,326.

VIOLENT CRIMES

Murder, rape, robbery and aggravated assault make up the "violent crimes" category. Violent crimes increased by 274 offenses from 2004 for a 1.9% increase. During 2005 violent crimes totaled 14,661. The 2004 total was 14,387. Violent crimes accounted for 12.4% of all reported Index Crimes (12.7% in 2004) and displayed a crime rate of 5.8 per 1,000 population. Nevada's ten-year average for violent crimes (1996-2005) was 12,754.

PROPERTY CRIMES

VIOLENT CRIMES

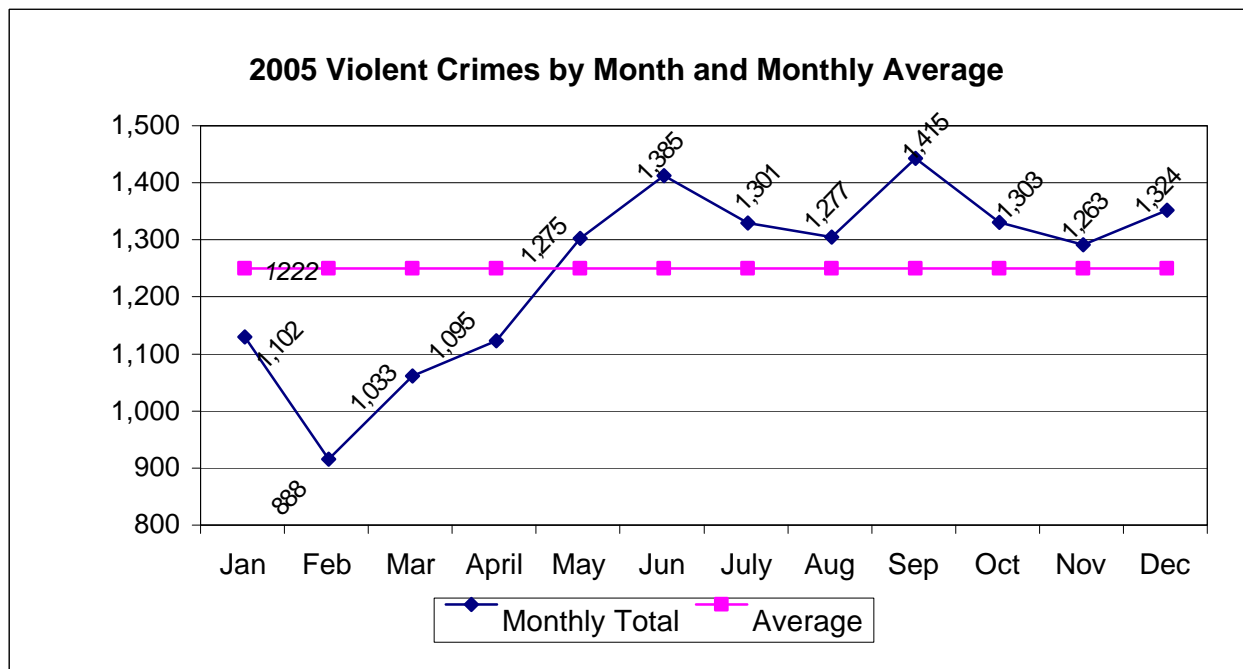

2005

Crime Clock - One Violent Crime Every 35 Minutes, 51 Seconds

Crimes of violence involve the element of personal confrontation between the perpetrator and victim and entail the threat or use of violence. By their very nature, violent crimes (murder, rape, robbery and aggravated assault) are considered more serious than property crimes. The total number indicates only the number of incidents reported to enforcement and does not reflect the number of criminals who committed them or the number of injuries inflicted.

The 2005 violent crime rate in Nevada was 5.8 offenses per 1,000 population. Violent crimes represented 12.4% of all reported index crimes. Enforcement agencies cleared 4,807 violent crimes for a 32.8% clearance rate.

PROPERTY CRIMES

2005

Crime Clock - One Property Crime Every 5 Minutes, 6 Seconds

Property crimes include burglary, larceny, motor vehicle theft and arson. These crimes do not involve the threat of violence, but entail property taken from one by another, or the destruction of property by arson. Because arson is the most recent addition to the crime index, to this point in time, the UCR Program has not fully reported it along with the other offenses. The reason for this is not all agencies participating in the UCR Program have consistently reported arson information, thus data reliability is still marginal.

There were 103,152 property crimes reported in 2005, representing 91.1% of total reported index crimes. Enforcement agencies cleared 19,190 (18.6%) of the property offenses. Nevada's property crime rate per 1,000 population in 2005 was 40.95.

MURDER AND NON-NEGLIGENT MANSLAUGHTER

2005

Crime Clock - One Murder Every 1 Day, 18 Hour

Murder and non-negligent manslaughter are described by UCR as the willful (non-negligent) killing of one human being by another, or, if the death is the result of the commission of another criminal act.

Murder--NRS 200.010: "Murder is the unlawful killing of a human being with malice aforethought, either express or implied, or caused by a controlled substance which was sold, given, traded or otherwise made available to a person in violation of Chapter 453 of NRS."

Manslaughter--NRS 200.040: (1) "Manslaughter: (a) Is the unlawful killing of a human being, without malice express or implied, and without any mixture of deliberation...(2) Manslaughter must be voluntary, upon a sudden heat of passion, caused by provocation apparently sufficient to make the passion irresistible; or, involuntary, in the commission of an unlawful act..."

Included in this publication's count for this offense classification are deaths caused by negligence. Although manslaughter by negligence is recorded on the "offense known to police" form along with murder, it is not considered by the UCR Program to be an index offense. Attempts to murder or assaults to murder are scored as aggravated assaults and not murder.

*Due to the unlimited set of possible circumstances surrounding homicides, it is difficult to provide clear-cut or precise statistical categories for all. To achieve uniformity, the number of circumstance categories has been kept to a minimum. Caution is suggested in drawing generalizations from the data without more deliberate analysis. This table makes no attempt to analyze the motives of offenders, but rather to display general circumstances surrounding events. Also note that it is possible to have more than one victim/murder for each circumstance.

**The number of relationships may not agree with the number of victims due to instances of multiple offenders or victims.

FORCIBLE RAPE

2005

Crime Clock - One Rape Every 8 Hours, 38 Minutes

Forcible rape, as defined in the UCR Program, is the carnal knowledge of a female forcibly and against her will. Assaults or attempts to commit rape by force or threat of force are also included. Statutory rape (without force) and other sex offenses are excluded.

Sexual Assault--NRS 200.366: (1) "A person who subjects another person to sexual penetration, or who forces another person to make a sexual penetration on himself or another, or on a beast, against the victim's will or under conditions in which the perpetrator knows or should know that the victim is mentally or physically incapable of resisting or understanding the nature of his conduct, is guilty of sexual assault."

Forcible rape differs from other violent crimes in that the victim, in many cases, is reluctant to report the offense to police. The investigation by police, medical examination, court procedure, embarrassment and fear of accompanying stigma all have a deterrent effect on the victim's willingness to make the offense known to police.

Most rapes in Nevada in 2005 occurred during the months of May, June and August accounting for 310 (30.54%) of the yearly total of 1015. June had the highest monthly total at 113 (11.13%).

Law enforcement was able to clear 25.62% of forcible rapes in 2005.

ROBBERY

2005

Crime Clock - One Robbery Every 1 Hour, 52 Minutes

Robbery is defined by UCR as "the felonious and forcible taking of the property of another against his will by violence or by putting him in fear." All attempts to rob are included in the UCR report.

Robbery--NRS 200.380: "Robbery is the unlawful taking of personal property from the person of another, or in the presence, against his will, by means of force or violence or fear of injury, immediate or future, to his person or property, or the person or property of a member of his family, or of anyone in his company at the time of the robbery. A taking is by means of force or fear if used to: (a) Obtain or retain possession of the property; (b) Prevent or overcome resistance to the taking; or (c) Facilitate escape. The degree of force used is immaterial if it is used to compel acquiescence to the taking of or escaping with the property. A taking constitutes robbery whenever it appears that, although the taking was fully completed without the knowledge of the person from whom taken, such knowledge was prevented by the use of force or fear."

AGGRAVATED ASSAULT

2005

Crime Clock - One Aggravated Assault Every 59 Minutes, 24 Seconds

An aggravated assault is an attempt or offer, with unlawful force or violence, to do physical injury to another. This type of assault is usually accompanied by the use of a weapon or other means likely to produce death or serious bodily injury. Attempts are included since it is not necessary that an injury result when a gun, knife, or other weapon is used which could and probably would result in serious personal injury if the crime is successfully completed. Assaults with personal weapons (hands, fists, feet) are scored as aggravated if there is personal injury requiring more than simple first-aid treatment.

Assault--NRS 200.471: (1) "...means an unlawful attempt, coupled with a present ability, to commit a violent injury on the person of another...(2) (b)...use of a deadly weapon, or the present ability to use a deadly weapon..."

Battery--NRS 200.481: (1) (a) "...means any willful and unlawful use of force or violence upon the person of another."

Not included in this class are simple (non-aggravated) assaults. Simple assaults are non-index offenses, although a record is kept of these assaults on the "Offenses Known to Police" form. During 2005, there were 34,210 simple assaults reported in Nevada, with a clearance rate of 45.31%.

There were 8,727 aggravated assault offenses reported to enforcement in 2005. The range went from 504 in February to 910 in September.

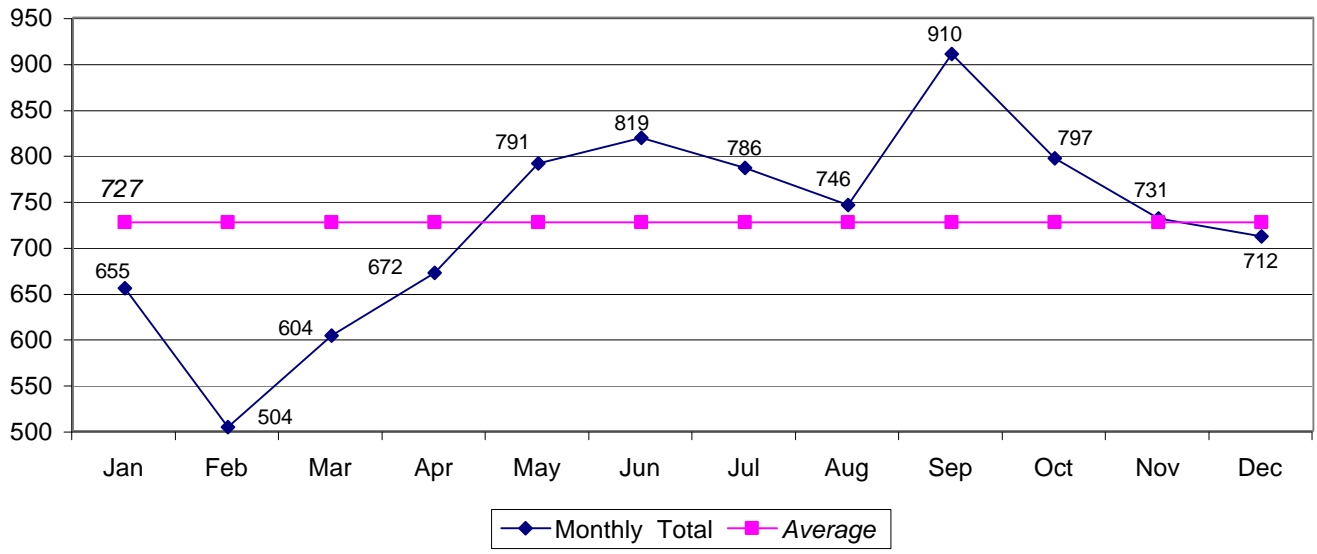

In 2005, Nevada law enforcement cleared 3,543 aggravated assaults (40.60%).

MOTOR VEHICLE THEFT

2005

Crime Clock 1 Motor Vehicle Theft Every 19 Minutes, 31 Seconds

Uniform Crime Reporting defines motor vehicle theft as the larceny or attempted larceny of a motor vehicle, including "joy riding." Excluded from this class is a reported offense where there is lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access, such as with employees.

Motor vehicles are defined by UCR as self-propelled vehicles that run on the surface of the land and not on rails, such as automobiles, trucks, buses, motorcycles, motor scooters, snowmobiles, ATV's, etc. Not included are farm equipment, construction equipment, airplanes, motorboats.

Motor Vehicle Theft--NRS 205.2715: "(1) Every person who takes and carries away or drives away the vehicle of another without the intent to permanently deprive the owner thereof but without the consent of the owner of such vehicles is guilty of a gross misdemeanor. (2) Every person who is in possession of a vehicle without the consent of the owner of such vehicle may reasonably be inferred to have taken and carried away or driven away the vehicle."

Motor vehicle thefts occurred most frequently during the months of November (2,620) and December (2,499). These months collectively accounted for 19.01% (5,119) of 2005's total motor vehicle theft offenses.

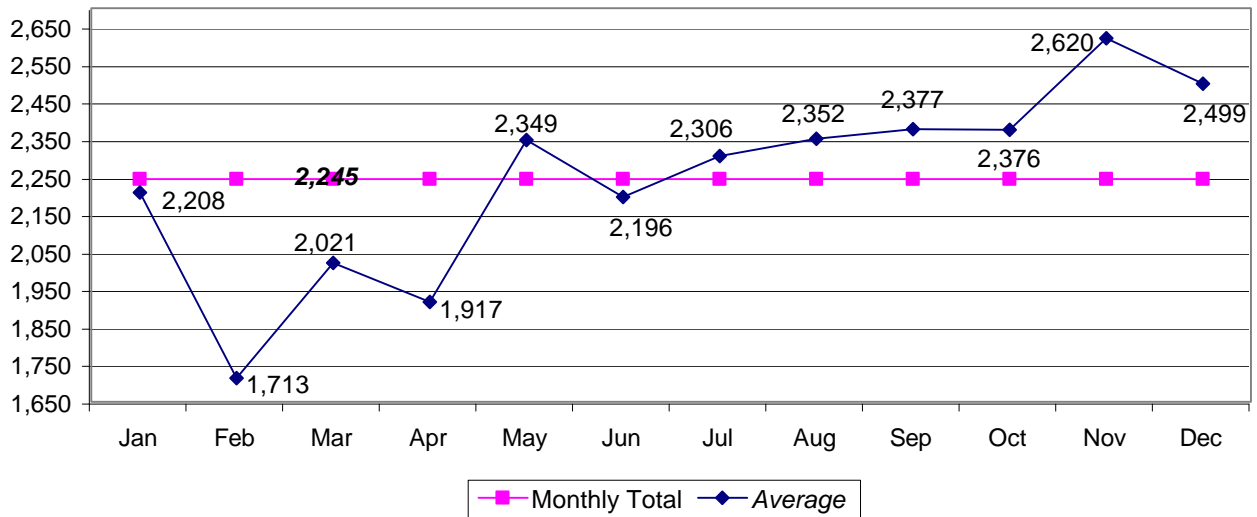

Law enforcement cleared 2,877 (10.68%) of all motor vehicle thefts in Nevada in 2005.

ARSON

2005

Crime Clock - One Arson Every 11 Hours, 16 Minutes

Arson was the eighth and latest index offense to be added to the UCR Program by congressional mandate in 1979. Since only 8,528 agencies covering 65.2% of the United State's population submitted reports for all 12 months of that year, data users should be aware that the figures do not represent the Nation's total arson experience. Caution is recommended when viewing arson trend information. Figures may have been influenced by improved arson reporting procedures. It is expected that year-to-year statistical comparability will improve as collection continues.

Nationally, 63,215 arsons were reported in 2004. The national overall rate of arson per 100,000 population was 48.8. Nationally, the average dollar loss for property damage or destroyed in reported arsons was \$12,017 per incident. There were 777 arsons reported in Nevada in 2005, compared to 692 in 2004. Nevada's arson rate per 1,000 population has generally decreased since the 1995 rate of 47.

Arson--NRS 205.005: "Any person shall be deemed to have set fire to a building, structure or any property mentioned in NRS 205.010 to 205.030, inclusive, whenever any part thereof or anything therein shall be scorched, charred or burned."

In 2005, arson offenses in Nevada occurred most frequently during the months of October (73), and May (93). These months represented 21.36% of the year's total. Law enforcement cleared 118 (15.19%) of reported arson offenses in 2005.

CLEARANCE RATES

2005

For Uniform Crime Reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge him and he is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime solutions are also recorded in exceptional circumstances when some elements beyond law enforcement control preclude formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

1. The offender commits suicide.
2. A double murder occurs (two persons kill each other).
3. The offender dies after making a confession (dying declaration).
4. The offender is killed by law enforcement officers.
5. The offender confesses to committing a crime while already in custody for another crime or serving a sentence for another crime.
6. The offender is prosecuted in another city for a different crime or the same crime by federal, state or local authorities, and the other jurisdiction refuses to release the order.
7. Another jurisdiction refuses to extradite the offender.
8. The victim of a crime refuses to cooperate in the prosecution.
9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.

During 2005, 20.37% of reported index crimes in Nevada were cleared, either by arrest or exceptional means. The percentage of violent crimes cleared in Nevada in 2005 was 32.79 compared to the national 2004 figure of 46.3%, while property crime clearances were 18.60% compared to the national 2004 level of 16.5% (arson (17.1%) is included separately in the national clearance percentage).

ARREST DATA

2005

Primarily a gauge of law enforcement's response to crime, arrest counts also provide definitive data concerning the age, sex and race of perpetrators. Arrest practices, policies and enforcement emphases vary from place to place and even within a community from time to time. While the practices for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy and related violations may differ among agencies, those for robbery, burglary and other serious crime arrests are more likely to be uniform and consistent throughout all jurisdictions. The UCR Program procedures require that an arrest be counted on each separate occasion a person is taken into custody, notified or cited. Annual arrest figures do not measure the number of individuals arrested since one person may be arrested several times during the year for the same or different offenses. For UCR purposes, a juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult an arrest would result, but in fact, there may not have been a formal charge.

Nationwide, law enforcement agencies made an estimated 14 million arrests in 2004 (the latest figures available) for all criminal infractions except traffic violations. When the overall arrest volume was related to the total United States population, the rate was 47.77 arrests per 1000 inhabitants. In Nevada, enforcement reports to UCR in 2005 indicated a total arrest figure of 154,210. The arrest rate per 1,000 in population for the state was 61.62.

During 2005:

-- 12.96% of all arrests were juveniles, 87.04% were adults

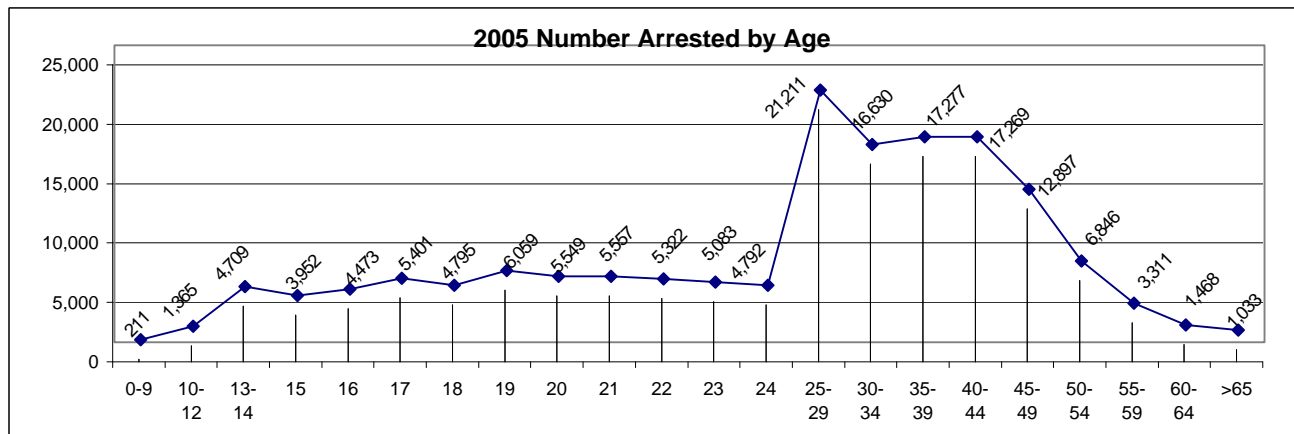

-- Index Offenses accounted for 32.99% of juvenile arrests

-- For Adults, 25.74% of arrests were for index offenses

-- 40.80% of adult arrests were between the ages of 25 and 40.

Hate Crimes

2005

--It shall be unlawful for any person, maliciously and with specific intent to intimidate, harass, cause physical injury, or damage real or personal property of another person because of that person's race, color, religion, ancestry, or national origin.--

In April, 1990, a federal mandate to collect and report hate/bias crimes was passed by Congress.

Unlike other Uniform Crime Reporting data, which account for actual reported numbers of definite offenses, hate crime reporting requires rather subjective opinions regarding sensitive issues. This requires various law enforcement administrators to develop and utilize viable and appropriate responsive policies.

Accurate data collection for hate crime requires proper training of enforcement personnel in incident recognition as well as cooperation and desire of enforcement communities to report these offenses without influence of special interest groups, media and politics.

Criteria for recognizing and reporting hate crimes have been prepared and distributed to all law enforcement agencies in Nevada. Enforcement personnel training is periodically offered by the Nevada UCR Program and the Federal Bureau of Investigation.

Information reported in this category includes the offense in relation to the bias incident, motivation (anti-race, anti-religion, anti-sexual orientation, anti-ethnicity, etc.) and identification of victims' and offenders' sex, race and ethnicity.

Nevada enforcement agencies reported 79 hate/bias incidents in 2005. There were 76 reported in 2004 and 61 in 2003.

ENFORCEMENT PERSONNEL EMPLOYMENT DATA

2005

The Uniform Crime Reporting Program in Nevada compiles information on enforcement personnel statewide as of October 31, 2005. Included are the total number of sworn and civilian support personnel with each agency broken out by gender. Also provided in this section are ratios of police to population.

A wide variety of factors unique to different jurisdictions affect the number of employees utilized by various law enforcement agencies to enable them to fulfill their service requirements. Because of this, persons attempting to make comparisons of population/enforcement personnel ratios between agencies/jurisdictions should do so cautiously. The State of Nevada, especially, with highly transient and seasonal population variations, has enforcement requirements which differ from many other jurisdictions.

Usage of the term "full-time sworn", when referring to enforcement personnel, does not necessarily mean they are engaged in what the public generally perceives as "regular" police duties, such as investigations, patrol, deterrence, etc. The number of personnel available for "regular" duties is affected by regulatory, correctional, administrative and special assignments. Consideration of in-house duties and responsibilities should temper comparisons of agencies.

Sworn Personnel

- During 2005, there were 4,128 full-time sworn municipal personnel in Nevada, providing 1.93 officers per 1,000 residents for urban population areas.
- There were 967 full-time sworn deputies employed by Nevada's 16 sheriff's departments in 2005, and 503 troopers with the Nevada Highway Patrol. The ratio of enforcement personnel for every 1,000 population in the rural areas was 3.87.
- Statewide, there were 5,598 full-time sworn law enforcement officers in 2005. This represents an overall ratio of 2.22 officers per 1,000 Nevada residents.
- Nationally in 2004, the latest full year of data available, a total of 14,254 city, county and state police agencies employed 675,734 full-time officers and 294,854 civilians, who provided services to more than 278 million inhabitants.
- Regionally, the highest ratios of sworn officers to population in 2004 were recorded in the Northeast states, where there were 3.5 per 1,000 inhabitants. The South had a rate of 3.4 and the Midwest had 2.7. The Western states had the lowest ratio of 2.4.
- The national rate of full time law enforcement employees per 1,000 inhabitants remained at 3.5 in 2004, unchanged from 2003.

Civilian Personnel

- Municipal police departments in Nevada in 2005 employed a total of 2,155 full-time civilians.
- Sheriff's departments statewide maintained 529 full-time civilian employees in 2005. The Nevada Highway Patrol employed a total of 293.
- The total number of full-time civilian support personnel employed statewide in 2005 was 2,977.

Classification of Offenses

DPS employees in Mississippi

State of Nevada
Department of Public Safety

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Nevada Uniform Crime Reporting System is based on the proper classification of offenses reported to or known by law enforcement. The adoption of the National System of Uniform Crime Reporting included the utilization of the offense classifications of that system. Law enforcement in this State has made accurate application of those classifications in the reports submitted to the Nevada Uniform Crime Reporting Program. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies," or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with Nevada State Law. However, the major categories of offense classification remain the same between the national and state levels.

CALCULATION OF RATES

The Uniform Crime Reporting Program provides data for police executives to measure local problems. To facilitate this function, local data must be converted into terms of rates and percentages. Simple formulas are displayed here which may assist in these computations.

CRIME RATES

One of the most meaningful crime statistics is the crime rate. This is the number of Part I offenses per 1,000 inhabitants. This rate can be calculated for any city, town or county.

To compute crime rates, divide the community population by 1,000 and divide the number of offenses in each class by that number. The answer is the number of offenses per 1,000 population and is the crime rate for that particular offense.

Example:

- a. Population - 75,000
 - b. Number of burglaries - 215
Divide: 75,000 by 1,000 = 75.0
Divide: 215 by 75.0 = 2.87
- The crime rate for burglary is 2.87 per 1,000 inhabitants.

CLEARANCE RATES

The percentage of crimes cleared is obtained by dividing the number of offenses cleared by the number of offenses known. This answer is then multiplied by 100.

Example:

- a. Number of clearances in robbery - 38
 - b. Number of total robberies - 72
Divide: 38 by 72 = 0.528
Multiply: 0.528 by 100 = 52.8
- The clearance rate for robbery is 52.8%.

CRIME TREND DATA

Each local agency can compute crime trends for a given offense for their individual agency for a particular period of time.

Example:

- a. Auto thefts in your jurisdiction for July through December last year numbered 21.
- b. Auto thefts in your jurisdiction for July through December this year numbered 29.
Subtract: 29-21 = 8, notice that 8 is an increase over the past year.
Divide: 8 by 21 = 0.38, always divide the difference by the total in the earlier time period.
Multiply: 0.38 x 100 = 38.0

The trend in auto theft is a 38.0% increase for the last six months of this year compared to the last six months of last year.

POLICE EMPLOYEE DATA

Police employee rates are expressed as the number of employees per 1,000 population. To compute this rate, divide the population by 1,000 and divide the number of enforcement employees by this number.

Example:

- a. Jurisdiction's population - 75,000
 - b. Agency's number of employees - 102
Divide: 75,000 by 1,000 = 75
Divide: 102 by 75 = 1.36
- The employee rate is 1.36 employees per 1,000 population.
