FORWARD

With great pride the Nevada Department of Public Safety, General Services Division's Uniform Crime Reporting Program presents the twenty-second annual report of *Crime In Nevada*.

Without the efforts of Nevada's law enforcement agencies this publication would not be possible. We would like to extend our sincere thanks and appreciation to each agency for their dedication and commitment in providing accurate and timely crime statistics to the state Uniform Crime Reporting Program.

If we can be of assistance, please contact the Uniform Crime Reporting Program at 775-684-6262 or email ucr@dps.state.nv.us.

This publication is available online at: gsd.nv.gov/About/UCR/Uniform-Crime-Reporting/

Respectfully,

Julie Butler
Division Administrator

The success of the Nevada Uniform Crime Reporting Program hinges on the complete, accurate and timely participation of all of Nevada's law enforcement agencies. The program was established with the support of criminal justice and law enforcement agencies statewide in July of 1991 (NRS 179A.078).

Although responsibility for actual development and execution of the program was vested in the Nevada Department of Public Safety, the individuals at the municipal, county and state levels who submit the raw data are the entities ultimately critical to its viability and success. Accordingly, we recognize the following dedicated people.

NEVADA COUNTIES

The Sixty-Sixth Session of the 1991 Nevada Legislature created the Uniform Crime Reporting Program within the Central Repository.

NRS 179A.078 Uniform Program for Reporting Crimes:

Establishment and purpose:

The Director of the Department shall establish within the Central Repository a Uniform Program for Reporting Crimes that is designed to collect statistical data relating to crime or delinquency of children and to facilitate the collection and analysis of statistical data relating to crime at a central location.

(Added to NRS by 1991, 824; A 1993, 362; 1997, 454; 2005, 903)

NRS 179A.075 Sections 2, 7 and 8 mandate the reporting of criminal justice statistics to the Central Repository, the submission of that data to the Federal Bureau of Investigation and publication of these statistics on the internet.

Excerpt From NRS 179A.075

- 2. Each agency of criminal justice and any other agency dealing with crime or delinquency of children shall:
- (a) Collect and maintain records, reports and compilations of statistical data required by the Department; and
 - (b) Submit the information collected to the Central Repository in the manner approved by the Director of the Department.
 - 7. The Central Repository shall:
- (a) Collect and maintain records, reports and compilations of statistical data submitted by any agency pursuant to subsection 2.
- (b) Tabulate and analyze all records, reports and compilations of statistical data received pursuant to this section.
- (c) Disseminate to federal agencies engaged in the collection of statistical data relating to crime information which is contained in the Central Repository.
- (g) On or before July 1 of each year, prepare and post on the Central Repository's Internet website an annual report containing the statistical data relating to crime received during the preceding calendar year. Additional reports may be posted to the Central Repository's Internet website throughout the year regarding specific areas of crime if they are approved by the Director of the Department.
- (h) On or before July 1 of each year, prepare and post on the Central Repository's Internet website a report containing statistical data about domestic violence in this State.
- (i) Identify and review the collection and processing of statistical data relating to criminal justice and the delinquency of children by any agency identified in subsection 2 and make recommendations for any necessary changes in the manner of collecting and processing statistical data by any such agency.

 8. The Central Repository may:
- (a) In the manner prescribed by the Director of the Department, disseminate compilations of statistical data and publish statistical reports relating to crime or the delinquency of children.
- (b) Charge a reasonable fee for any publication or special report it distributes relating to data collected pursuant to this section. The Central Repository may not collect such a fee from an agency of criminal justice, any other agency dealing with crime or the delinquency of children which is required to submit information pursuant to subsection 2 or the State Disaster Identification Team of the Division of Emergency Management of the Department. All money collected pursuant to this paragraph must be used to pay for the cost of operating the Central Repository.
- (c) In the manner prescribed by the Director of the Department, use electronic means to receive and disseminate information contained in the Central Repository that it is authorized to disseminate pursuant to the provisions of this chapter.

The **Uniform Crime Reporting (UCR)** Program is a nationwide cooperative effort of over 18,000 city, county, and state law enforcement agencies reporting data on crime. The monthly contributions to Nevada's current program, with over 40 local law enforcement agencies reporting, represent a solid beginning in establishing an effective statewide criminal justice information system (CJIS). We invite remaining non-participating local law enforcement agencies to join their peers in this effort and to participate in this important program.

Inquiries concerning Uniform Crime Reporting may be directed to:

Department of Public Safety General Services Division Uniform Crime Reporting 333 West Nye Lane Suite 100 Carson City, NV 89706 (775)684-6262

Ideally, UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, and corrections) to form an integrated system for the exchange of vital management information. The availability of such data will enhance law enforcement's proactive response to crime and justice in Nevada. The Nevada Department of Public Safety administers the UCR Program as a statewide, standardized method of collecting statistics on crime as it is reported to law enforcement. The UCR program also produces a reliable set of crime statistics for use in law enforcement administration, operation, and management. Additionally, Nevada's statistics are forwarded monthly to the FBI for inclusion in its annual report *Crime in the United States*.

We hope UCR data will be used over the years as a leading social indicator. With this annual report, Nevada's citizens can look to UCR as the primary information source on the nature and extent of crime in Nevada. Criminologists, sociologists, legislators, state and local planners, the media, and academicians can use the statistics for wide and varied research, planning, as well as for other applications.

CRIME FACTORS

Statistics gathered under the UCR Program are submitted by the participating law enforcement agencies of Nevada and represent a spectrum of crime on statewide, county, and municipal levels. Awareness of the presence of unique variables is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, the crime developments of the community. Comparison of crime figures between communities should not be made without first considering individual factors present in each community. Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role as to its detection and suppression.

Following are some conditions that will, by type and frequency, affect crime that occurs from place to place.

- Size and density of community population and the degree of urbanization in the surrounding area
- Compositions of population with particular reference to youth concentration
- Economic status of population, median income and job availability
- Relative stability of population, including commuters, seasonal, and other transient types
- Modes of transportation and area highway systems
- Climate, including seasonal weather conditions
- Cultural conditions such as educational, recreational, and religious characteristics
- Standards governing appointments to the police force
- Policies of prosecuting officials, the courts, correctional and parole/probation officials
- Effective strength of law enforcement agencies
- Attitude of the public toward reporting crime and participation in the prosecution of offenders
- The administrative and investigative efficiency of local law enforcement agencies, including the degree of adherence to crime reporting standards
- Organization and cooperation of adjoining and overlapping police jurisdictions

The primary goal of the UCR program is to identify crime and related problems. Statistics in this publication should not be used to measure or to evaluate workloads and results of individual contributing departments. While most police agencies are collectively viewed as crime-fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and different community factors that normally affect crime statistics, no conclusions regarding individual departments should be made without consulting directly with the agency being analyzed.

Crime rates in this publication are based on the resident population of the state and its subdivisions as established and published by the Nevada State Demographer. Population estimates are revised annually. Seasonal population figures are too inaccurate and fluctuate too rapidly to be used in the determination of crime rates. Most Nevada communities experience rather wide seasonal population fluctuations due to the nature of the state's major industries, gaming and tourism. Accordingly, actual crime rates per thousand reported here may appear higher than might be expected for a community of comparable size without substantial fluctuations. This should not deter police administrators from using the data for planning and administrative purposes. Local seasonal population data is available which can be utilized for further statistical refinements.

Additionally, readers are cautioned not to make direct comparisons between crime rates reported for Nevada communities and those of communities of similar size in other states without first carefully analyzing and applying local modifying factors.

POTENTIAL USES OF UCR DATA

The Nevada program is unique among similar state programs as it is dedicated to doing more than just gathering statistics. The program is dedicated to providing statistical support services to its contributors and to producing a variety of reports, or crime profiles, on an as-needed basis. These crime profiles will set the stage for extensive use of the data by police administrators and other criminal justice agencies.

Persons reading this report may ask, "How good are Uniform Crime Reports and how can they be used?" Initial responses that come to mind may be limited, but as the information is examined more closely, many and varied uses are discovered. Foremost is keeping the public informed as to the volume and nature of crime, which they may judge and act accordingly. In actuality, UCR is a multi-faceted vehicle of many uses. Here are a few, but by no means all such uses, as they relate to different groups and agencies.

Law Enforcement Contributors

Administrative information relating to:

- Budget need and justification
- Staffing number needed relating to state average number of employees vs. population and crime rate
- Department composition Patrol, Administration, Jail, Laboratory, Detective Division, Juvenile
- Identification of specific problem crimes
- Disbursement of personnel and shifts in accordance with the crime picture of individual communities with avoidance of duplication of services in cases of concurrent jurisdiction
- Training according to crime problem prioritization
- Equipment procurement by justified need
- Selective enforcement by crime volume, particular times, and seasons through UCR information
- Crime Profiles identification of problems unique to individual communities
- Long-range Planning as anticipated by crime trends

Governor and Legislature

- Broad, accurate picture of crime in Nevada by location, frequency, type, and rate, as reported and derived from records of all participating enforcement agencies
- Guide to validate funding needs of special interest groups and their requests for funding of the same
- Need for more or fewer specialized programs
- Identification of crime trends and their relationship(s) to training, courts, corrections, and other criminal justice agencies
- Identification of various social problems relating to drugs, alcohol and rehabilitation
- Effectiveness of various social programs related to drugs, alcohol and rehabilitation

Courts - Prosecution

- Valuable general research information on crimes within the areas being served
- Crime trend information
- Identification of specific crimes to be considered in the prosecutorial and judicial processes

Press

- A factual source for use in reporting crime and socially-related problems

Social Agencies

- Identification of problem areas for concentration of remedial activities
- Application for general evaluation of program effectiveness

Educational Institutions

- Educators at all levels can use UCR data for various studies, budget preparation, and planning.

The above listed are a few possible uses; undoubtedly many more exist. The larger the UCR database becomes, the clearer its value will become. Since effective problem solving begins with problem identification, UCR will continue to be meaningful for years to come.

Nevada UCR believes the data provided herein can serve as a catalyst for some departments to establish modern record systems for the first time. With other agencies it may spur needed system upgrades. This will enable administrators at the chief and sheriff levels to be able to take a renewed look at their departments, potentially effecting beneficial internal operational changes. Awareness by subordinate personnel that their reports and arrest information are being used, not just filed, will result in better and more comprehensive reporting. Finally, the periodic release of crime information to the general public will keep the crime problem in its proper perspective.

REPORTING PROCEDURE

In Nevada's UCR, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting Section of the General Services Division in Carson City. The UCR Program, to maintain data quality and uniformity, furnishes to the contributing agencies continuous training and instruction in Uniform Crime Reporting procedures. All contributors are also given data submission guidelines, report forms, and a UCR Guide furnished by the FBI that outlines, in detail, procedures to score and to classify offenses. The guide illustrates and discusses the monthly and annual report forms.

A centralized record system is vital to the sound operation of any law enforcement agency. It is an essential element for crime reporting. Trained UCR personnel at the state level assist contributors in following established reporting procedures.

Law enforcement agencies (state, county and municipal) report the number of offenses that become known to them in the following crime categories:

- 1. Criminal Homicide
 - a. Murder and Non-Negligent Manslaughter
 - Manslaughter by Negligence
- 2. Rape
 - a. Rape
 - b. Attempts to commit rape
- 3. Robbery
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon

- Strong-Arm (Hands, Fists, Feet, etc.)
- Assault
 - a. Firearm
 - b. Knife or Cutting Instrument
 - c. Other Dangerous Weapon
 - d. Hands, Fists, Feet, etc, Aggravated
 - e. Hands, Fists, Feet, Not Aggravated (e.g. Simple Assault)
- 5. Burglary
 - a. Forcible Entry
 - b. Unlawful Entry No Force
 - c. Attempted Forcible Entry
- Larceny-Theft (except motor vehicle theft)
- 7. Motor Vehicle Theft
 - a. Autos
 - b. Trucks and Buses
 - c. Other Vehicles
- 8. Arson
- Human Trafficking
 - a. Commercial Sex Acts
 - b. Involuntary Servitude

In addition, the agencies submit the number of arrests recorded by sex, age, race and ethnicity for 21 other "Part II" offenses. Descriptions of these offenses are provided under the offense classification section.

Another facet of the UCR Program involves the collection of hate crimes. In 1990, the President of the United States signed into law the "Hate Crime Statistics Act of 1990". In October 2009, the Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act amended the Hate Crime Statistics Act. The data identifies crimes that manifest evidence of prejudice based on race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are subtracted from the actual count. The number of "actual offenses known" in these crime categories is reported to the Nevada UCR Unit whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect.

Other data configurations which contributing agencies tally through the UCR system are as follows:

- -Number of crimes cleared by arrest or exceptional means
- -Number of crimes cleared involving persons under age 18
- -Number of law enforcement officers killed or assaulted
- -Type and value of property stolen and recovered
 - -Number of arrests for all criminal acts (except traffic violations), broken out by arrestee age, sex and race
 - -Number of sworn and civilian enforcement personnel employed by agency type

HIERARCHY RULE

There is a significance to the order in which the Part I offenses are presented. In cases where more than one offense occurs in an incident, only the highest ranking Part I offense is counted. Three offenses, Arson, Human Trafficking—Commercial Sex Acts, and Human Trafficking—Involuntary Servitude, ignore the Hierarchy Rule and are always counted even in cases when multiple offenses occur in an incident. The Hierarchy Rule, which requires counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts.

VERIFICATION PROCEDURE

Data uniformity and accuracy is of primary concern under this program. With coverage of over 40 reporting jurisdictions within the State of Nevada, the problems with attaining uniformity are apparent. Issuance of instructions and training of personnel within contributing agencies does not complete the role of the UCR Unit. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness.

Clearance factors, recovery rates, and other elements are scrutinized and changes are suggested to the contributors where needed. In the instance of minor mathematical corrections, the contributing agency is either contacted by mail, fax, telephone, e-mail or in-person visitations made by qualified UCR Program personnel.

The possibility of report duplication requires constant verification through internal consistency checks. If duplication is suspected, the contributing agency is immediately contacted and the matter is resolved in accordance with guidelines. Continual analysis of reports is ongoing to assist contributors, and to maintain the quality necessary for a factual and successful program. In addition, an FBI Quality Assurance Group periodically visits contributors to cooperatively assist in necessary auditing of records and reporting methods.

Regardless of the extent of the quality control process employed by the Uniform Crime Reporting Unit, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting. We are especially grateful to the UCR support staff in each contributing agency for their diligence and persistence, and for their constant attention to reporting policies and procedures.

CLASSIFICATION OF OFFENSES

Uniformity in reporting under the Federal Bureau of Investigation's Uniform Crime Reporting Program is based on the proper classification of offenses reported to or known by the police. The adoption of the National System of Uniform Crime Reporting includes the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the Nevada Uniform Crime Reporting Program. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors," "felonies" or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with Nevada State Law. However, the major categories of offense classification remain the same between the national and state level.

The following definitions are per the FBI's Criminal Justice Information Services Division Uniform Crime Reporting Program Summary Reporting System User Manual (V. 1.0, dated 6/20/2013).

PART I OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Nevada Law Enforcement Agencies. Part I crimes are comprised of the following offenses.

1. CRIMINAL HOMICIDE

1a. Murder and Non-Negligent Manslaughter - The willful (non-negligent) killing of one human being by another.

Includes any death due to a fight, quarrel, argument, assault or commission of a crime.

1b. Manslaughter by Negligence - The killing of another person through gross negligence.

Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included.

2. RAPE

- **Note:** In 2011, the FBI UCR Program revised the definition of rape for reporting purposes. As the offense is now defined, it is possible to report either males or females as rape victims. The former (historical) definition used for rape was: The carnal knowledge of a female forcibly and against her will.
- 2a. Rape-Completed Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
- 2b. Rape-Attempts to Commit Rape Assaults and attempts to rape.

3. ROBBERY

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force of threat of force or violence and/or by putting the victim in fear. Includes all attempts.

- 3a. Gun Includes robberies and attempts in which any firearm is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear. Attempts are included.
- 3b. Knife or Cutting Instrument Includes robberies and attempts in which a knife, broken bottle, razor, ice pick, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim or put the victim in fear. Attempts are included.
- 3c. Other Dangerous Weapon Includes robberies in which a club, acid, explosive, brass knuckles, Mace®, pepper spray, stun guns, Tasers®, or other dangerous weapon is employed or its use is threatened. Attempts are included.
- 3d. Strong Arm-Hands, Fists, Feet, etc. Includes muggings and similar offenses in which only personal weapons such as hands, arms, feet, fists and teeth are employed or their use is threatened to deprive the victim of possessions. Attempts are included.

4. AGGRAVATED ASSAULT

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

All assaults will be classified in the following categories excluding assaults with intent to rob or rape.

- 4a. Firearm Includes all assaults and attempted assaults involving the use of any type of firearm (revolvers, automatic pistols, shotguns, zip guns, etc.).
- 4b. Knife or Cutting Instrument Includes assaults wherein weapons such as knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, arrows, and ice picks are used as cutting or stabbing objects or their use is threatened.
- 4c. Other Dangerous Weapon Includes assaults resulting from the use or threatened use of any object as a weapon in which serious injury does or could result. The weapons in this category include, but are not limited to, Mace®, pepper spray, clubs, bricks, jack handles, tire irons, bottles, or other blunt instruments used to club or beat victims. Attacks by explosives, acid, lye, poison, scalding, burnings, BB guns, pellet guns, Tasers®, stun guns, etc. are also included in this category.
- 4d. Hands, Fist, Feet, Etc (Aggravated Injury) includes only the attacks using personal weapons such as hands, arms, feet, fists, and teeth, that result in serious or aggravated injury. Reporting agencies are to consider the seriousness of the injury as the primary factor in establishing whether the assault is aggravated or simple. The assault is aggravated if the personal injury is serious, for example, there are broken bones, internal injuries, or stitches required. Conversely, the offense is considered simple assault if the injuries are not serious (abrasions, minor lacerations, or contusions) and require no more than usual first-aid treatment.

5. BURGLARY

Breaking and Entering - Unlawful entry of a structure to commit a felony or theft.

Note: For Uniform Crime Reporting purposes the terms "Burglary" and "Breaking and Entering" are considered synonymous. All such offenses and attempts are scored as burglary. Breaking and Entering of a motor vehicle is classified as a larceny for Uniform Crime Reporting purposes.

The UCR Program classifies offenses locally known as burglary (any degree), unlawful entry with intent to commit a larceny or felony, breaking and entering with intent to commit a larceny, housebreaking, safecracking, and all attempts at these offenses as burglary

- 5a. Forcible Entry All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This definition applies when a thief gains entry by using tools, breaking windows, forcing windows, doors, transoms, or ventilators, cutting screens, walls, or roofs, and where known, using master keys, picks, unauthorized keys, celluloid, a mechanical contrivance of any kind (e.g., a passkey or skeleton key), or other devices that leave no outward mark but are used to force a lock. Agencies also include burglary by concealment inside a building followed by exiting the structure as burglary.
- 5b. Unlawful Entry No Force All offenses when access is achieved by use of an unlocked door or window. The element of trespass to the structure is essential in this category, which includes thefts from open garages, open warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses where entry is achieved by other than the tenant who has lawful access. Any unlawful entry without any evidence of forcible entry.
- 5c. Attempted Forcible Entry This category includes those situations where a forcible entry burglary is attempted but unlawful entry is not achieved.

6. LARCENY-THEFT (except motor vehicle theft)

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

Includes all larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larceny from a motor vehicle, larceny of motor vehicle parts and accessories, theft of bicycles, larceny from buildings, and from coin-operated machines.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle.

This classification includes the theft or attempted theft of a motor vehicle which, for Uniform Crime Reporting designation, is described as a self-propelled vehicle that runs on the surface of the land and not on rails. Excludes reported offenses where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle (chauffeur, employees, etc.). Includes "Joy Riding." Excluded from this category are airplanes, boats, farm equipment and heavy construction vehicles, which are scored in the larceny category.

8. ARSON

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Arson reports are broken down into Structural, Mobile and Other.

Structural - A permanently fixed house trailer or mobile unit used as an office, residence, or storehouse is considered structural property. Can be residential or nonresidential.

Mobile - Motor vehicles and other mobile property such as trailers, airplanes, boats, etc.

Other – Property such as crops, timber, fences, signs, and merchandise stored outside structures.

9. HUMAN TRAFFICKING

Commercial Sex Acts: Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.

Involuntary Servitude: The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

PART II OFFENSES

The Part II offenses encompass all other crime classifications outside of those defined as Part I offenses. In November 1932 the national UCR Program adopted a Standard Classification of Offenses for the compilation of criminal statistics. This classification was devised and adopted in order that law enforcement, judicial and penal statistics might be uniformly compiled in terms of a single classification of offenses. The definitions of the Part II offenses that follow include some of the offense titles described in Nevada Revised Statute and in county or municipal code. These titles have been included as descriptive data to aid in determining the offenses that are included or excluded from each classification.

9. OTHER ASSAULTS - SIMPLE, NOT AGGRAVATED

Includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim did not sustain serious or aggravated injuries.

Examples of local jurisdiction offense titles that would be included in "other assaults" are:

- A. Culpable negligence
- B. Intimidation
- C. Coercion
- D. Stalking
- E. Hazing
- F. Resisting or obstructing an officer
- G. Minor assault
- H. Attempts to commit any of the above

10. FORGERY AND COUNTERFEITING

The altering, copying, or imitating of something, without authority or right, with the intent to deceive or defraud by passing the copy or thing altered or imitated as that which is original or genuine, or the selling, buying, or possession of an altered, copied, or imitated thing with the intent to deceive or defraud.

In the majority of states, forgery and counterfeiting are treated as allied offenses.

- A. Altering or forging public or other records
- B. Making, altering, forging or counterfeiting bills, notes, drafts, tickets, checks, credit cards, etc.
- C. Forging wills, deeds, bonds, seals, trademarks, etc.
- D. Counterfeiting coins, plates, bank notes, checks, etc.
- E. Possessing or uttering forged or counterfeited instruments
- F. Erasures
- G. Signing the name of another or fictitious person with intent to defraud
- H. Using forged labels
- I. Possession, manufacture, etc., of counterfeiting apparatus
- J. Selling goods with altered, forged, or counterfeited trademarks
- K. All attempts to commit above

11. FRAUD

The intentional perversion of the truth for the purpose of inducing another person or other entity in reliance upon it to part with something of value or to surrender a legal right. Fraudulent conversion and obtaining of money or property by false pretenses.

Fraud involves either the offender receiving a benefit or the victim incurring a detriment. The benefit or detriment could be either "tangible" or "intangible." Intangibles are anything which cannot be perceived by the sense of touch. They can be benefits, e.g., a right or privilege, a promotion, enhanced reputation, or a detriment, e.g., loss of reputation, injured feelings.

Includes:

- A. Bad checks, except forgeries and counterfeiting
- B. False pretenses/swindle/confidence games

This class is limited to "suspicion" arrests where persons arrested are released by police.

CALCULATION OF RATES

The **Uniform Crime Reporting Program** provides data for police executives to measure local problems. To facilitate this function, local data must be converted into terms of rates and percentages. Simple formulas are displayed here which may assist in these computations.

CRIME RATES

One of the most meaningful crime statistics is the crime rate. This is the number of offenses per 1,000 inhabitants. This rate can be calculated for any city, town or county.

To compute crime rates, divide the community population by 1,000 and divide the number of offenses in each class by that number. The answer is the number of offenses per 1,000 population and is the crime rate for that particular offense.

Example:

a. Population - 75,000

b. Number of burglaries - 215 Divide: 75,000 by 1,000 = 75.0 Divide: 215 by 75.0 = 2.87

The crime rate for burglary is 2.87 per 1,000 inhabitants.

CLEARANCE RATES

The percentage of crimes cleared is obtained by dividing the number of offenses cleared by the number of offenses known. This answer is then multiplied by 100 to get a percentage.

Example:

a. Number of clearances in robbery - 38

b. Number of total robberies - 72
Divide: 38 by 72 = 0.528
Multiply: 0.528 by 100 = 52.8
The clearance rate for robbery is 52.8%.

CRIME TREND DATA

Local agencies can compute crime trends for a given offense for their individual agency for a particular period of time.

Example:

- a. Auto thefts in your jurisdiction for July through December last year numbered 21.
- b. Auto thefts in your jurisdiction for July through December this year numbered 29.

Subtract: 29-21 = 8, notice that 8 is an increase over the past year.

Divide: 8 by 21 = 0.38, always divide the difference by the total in the earlier time period.

Multiply: $0.38 \times 100 = 38.0$

Your trend in auto theft is a 38.0% increase for the last six months of this year compared to the last six months of last year.

POLICE EMPLOYEE DATA

Police employee rates are expressed as the number of employees per 1,000 population. To compute this rate, divide the population by 1,000 and divide the number of enforcement employees by this number.

Example:

a. Your jurisdiction's population - 75,000

b. Your agency's number of employees - 102

Divide: 75,000 by 1,000 = 75 Divide: 102 by 75 = 1.36

Your employee rate is 1.36 employees per 1,000 population.

PROFILE OF THE STATE OF NEVADA

This profile is presented to provide some general knowledge and facts about the State of Nevada. The information might assist users of this publication in understanding the environment in which reported crime incidents and arrest data occurred.

NEVADA FACTS AND FIGURES

Nevada is the seventh largest state in the United States, covering 110,561 square miles. The state's long western border is shared with California, the most populous state in the Union. On its northern and eastern borders are the states of Oregon, Idaho, Utah, and Arizona. The state's longest distance from the northwest corner to the southern tip is approximately 600 miles. At the widest point it is nearly 350 miles.

Nevada consists of seventeen counties, ranging in size from 153 square miles for the state capitol of Carson City to over 18,000 square miles for Nye County, one of the largest counties in the United States.

The geography of the state consists of rugged desert and mountain terrain, with the highest mountain peak (Boundary Peak in Esmeralda County) having an elevation of 13,146 feet above sea level and the lowest point on the Colorado River having an elevation of 490 feet.

Nevada has a four-season climate, with wide variations between its northern and southern latitudes. Low temperatures in the north can go well below zero in the winter months, while high temperatures in the south can climb well over 100° Fahrenheit in the summer. It is the most arid state in the country, receiving an average of less than ten inches of precipitation annually.

Of Nevada's total land area, 85.3% is controlled by the federal government. State and local governments control 0.3% and 1.6% falls under the jurisdiction of 22 American Indian Reservations. The United States military, which has a significant presence, has also reserved large areas.

Nevada's population increased by over 54% between 1980 and 1990 (from 800,508 to 1,236,130), 60.0% from 1990 to 2000 (1,236,130 to 2,065,610) and 37.04% from 2000 to 2015 (2,065,610 to 2,871,934) positioning Nevada among the highest rates of population growth in the nation for the past several years.

Due to these tremendous long-term increases, several communities have been hard-pressed to provide necessary infrastructures.

Despite this growth, Nevada remains one of the most sparsely populated states, with about 26 people per square mile.

Fully 90.00% of the state's total population is located in the counties of Clark (2,088,149 – 72.71%), Washoe (488,008 – 15.46%) and Carson City (54,694 – 1.90%).

Tourism and gaming are the state's largest industries. The gaming industry generated revenue of \$11,114,081,000 in 2015, up 0.87%) from 2014 when the revenue was \$11,018,688,000.

The Nevada State Demographer at the University of Nevada, Reno, estimates the following population composition for Nevada in 2015:

Age 2015

0 to 4 Years of Age	7.18%
5 Years of Age	1.27%
6 to 18 Years of Age	17.84%

This mode of display should not be taken to imply regularity in the commission of the offenses, but rather, it represents the annual ratio of crime to fixed time intervals.

2012-2015 NEVADA INDEX CRIMES

The figures displayed here represent the latest four calendar-years of data collection and compilation under the state-run Nevada UCR Program. Over 40 agencies are currently reporting UCR data, covering 99% of the state's population.

Crime rates as they appear in this publication are per 1,000 population. No attempt is made to incorporate transient populations or other factors which contribute to the ratio and the types of crime in given areas. Any effort to make comparisons of crime rates between areas should be tempered by these population and environmental variables.

Please note: Human Trafficking is a new data collection category implemented by the FBI; therefore, year-over-year data comparisons are not available.

2015 CLEARANCE RATES

For Uniform Crime Reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge and the offender is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime clearances are also recorded in exceptional circumstances when some elements beyond law enforcement control preclude formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

- 1. The offender commits suicide.
- 2. A double murder occurs (two persons kill each other).
- 3. The offender dies after making a confession (dying declaration).
- 4. The offender is killed by law enforcement officers.
- 5. The offender confesses to committing a crime while already in custody for another crime or serving a sentence for another crime.
- 6. The offender is prosecuted in another city for a different crime or the same crime by federal, state or local authorities, and the other juristiction refuses to release the offender.
- 7. Another jurisdiction refuses to extradite the offender.
- 8. The victim of a crime refuses to cooperate in the prosecution.
- 9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
- 10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.

During 2015, 18.26% of reported index crimes in Nevada were cleared, either by arrest or exceptional means, down from 21.07% in 2014. The percentage of violent crimes cleared in Nevada in 2015 was 34.36%, down from 39.78% the previous year, while property crime clearances were 14.04%, down from the 2014 level of 16.56%.

The population breakdowns by agency do not necessary equal the "County Total" because because certain agencies are responsible for non-permanent populations, such as the Airport Police and School Police Services.

*Due to the unlimited set of possible circumstances surrounding homicides, it is difficult to provide clear-cut or precise statistical categories for all. To achieve uniformity, the number of circumstance categories has been kept to a minimum. Caution is suggested in drawing generalizations from the data without more deliberate analysis. This table makes no attempt to analyze the motives of offenders, but rather to display general circumstances surrounding events. Also note that it is possible to have more than one victim/murder for each circumstance.

2015 RAPE

Crime Clock - One Rape Every 5 Hours, 11 Minutes

NOTE: In 2011, the FBI UCR Program revised the definition of rape for reporting purposes. As the offense is now defined, it is possible to report either males or females as rape victims.

Rape - penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, or by a sex-related object, without the consent of the victim. This definition includes either gender of victim or offender. This definition also includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to the influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of the victim to demonstrate lack of consent.

In 2015 Nevada law enforcement was able to clear 18.09% of rapes.

SIMPLE ASSAULT STATISTICS

2015 SIMPLE ASSAULT

Crime Clock - One Simple Assault Every 15 Minutes, 3 Seconds

Simple assault, as defined by the FBI Uniform Crime Reporting program, includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim did not sustain serious or aggravated injuries. Agencies classify simple assault for offenses such as assault and battery, injury caused by culpable negligence, intimidation, coercion, and all attempts to commit these offenses. Under certain circumstances, offenses of disorderly conduct, domestic violence, or affray is classified as simple assault.

<u>Not included</u> in this class are aggravated assaults. Simple assaults are non-index offenses; therefore, they are not included in the total number of violent crimes committed in the calendar year. However, due to the pervasiveness of these assaults the Nevada UCR office felt it was important to publish these statistics.

There were 34,894 simple assault offenses reported to Nevada law enforcement in 2015. Nevada law enforcement cleared 15,627 simple assault incidents, which is 44.78%.

HATE CRIMES

2015 HATE CRIMES

On April 23, 1990 Congress passed the Hate Crime Statistics Act. This law requires the United States Attorney General to collect data "about crimes that manifest evidence of prejudice based on race, religion, sexual orientation, or ethnicity." The Attorney General delegated the collection of this data to the FBI, who included it in the Uniform Crime Reporting Program.

The FBI Uniform Crime Reporting Program collects hate crime data regarding criminal offenses motivated, in whole or in part, by the offender's bias against a race, religion, disability, sexual orientation, ethnicity, gender, or gender identity. Due to the difficulty of ascertaining the offender's subjective motivation, bias is to be reported only if investigation reveals sufficient objective facts to lead a reasonable and prudent person to conclude that the offender's actions were motivated, in whole or in part, by bias.

Unlike other Unifom Crime Reporting data, which account for actual reported numbers of definite offenses, hate crime reporting requires subjective opinions regarding sensitive issues. Accurate data collection for hate crime requires proper training of enforcement personnel in incident recognition. Criteria for recognizing and reporting hate crimes have been distributed to all Nevada law enforcement agencies.

STOLEN & RECOVERED PROPERTY VALUES

STOLEN AND RECOVERED PROPERTY VALUES

There was over \$280 million dollars worth of property reported stolen in Nevada in 2015. This value does not include the value of property damaged due to vandalism, malicious mischief or arson.

Supplementary reports relating to stolen and recovered property provide information on the estimated value of such property. Investigating officers have the obligation to assess the value of property stolen and recovered in each crime index offense.

Officers are guided by the following instructions:

- 1. Use the fair market value for articles that are subject to depreciation because of wear and tear, age, or other factors that cause the value to decrease with use.
- 2. Use the cost to the merchant (wholesale cost) of goods stolen from retail establishments, warehouses, etc. In other words, use the dollar value representing the actual cash loss to the victim without any markup or profit added.
 - 3. Use the victim's evaluation of items such as jewelry, watches, and other similar goods that decrease in value slightly or not at all with use or age.
- 4. Use the replacement cost or actual cash cost to the victim for new or almost new clothes, auto accessories, bicycles, etc.
- 5. Use common sense and good judgment to dictate a fair market value of the stolen items when the victim obviously exaggerates the value of stolen property for insurance or other purposes.

2015 Stolen Property Facts at a Glance

Property stolen totaled \$283,769,142

Property recovered totaled \$73,908,004

The average rate of recovery for property stolen excluding motor vehicles was 6.42%

Stolen property, excluding motor vehicles, was valued at \$190,115,288 with \$6,189,925 in property recovered

LAW ENFORCEMENT PERSONNEL

LAW ENFORCEMENT PERSONNEL EMPLOYMENT DATA

The Uniform Crime Reporting Program in Nevada compiles the number of enforcement personnel statewide as of October 31 of each year. Included are the total number of sworn and civilian support personnel with each agency broken out by gender. Also provided in this section are ratios of police to population.

A wide variety of factors unique to different jurisdictions affect the number of employees utilized by various law enforcement agencies to enable them to fulfill their service requirements. Because of this, persons attempting to make comparisons of population/enforcement personnel ratios between agencies/jurisdictions should do so cautiously. The State of Nevada, especially, with highly transient and seasonal population variations, has enforcement requirements which differ from many other jurisdictions.

Full time law enforcement officers include any sworn personnel that possess full arrest powers and carry a weapon. Their primary duties include responding to routine calls for police service, emergency situations, or crime scenes; performing routine patrol; rendering emergency services, enforcing criminal laws and traffic regulations; and investigating violations of criminal laws and traffic accidents. These employees' salaries are paid from law enforcement funds. In addition, correctional officers and police cadets are only included in the officer counts if they are sworn and possess full arrest powers.

Civilian counts are inclusive of all full-time employees of the agency, i.e., dispatchers, clerks, and meter attendants. These employees' salaries are paid from law enforcement funds. Furthermore, correctional officers or jailers that have no police or arrest powers outside the jail, are counted as civilians as long as their salaries are paid from the funds of the law enforcement agency.

Statewide, there were 6,253 full-time sworn law enforcement officers in 2015. This represents an overall ratio of 2.18 officers per 1,000 Nevada residents.

The total number of full-time civilian support personnel employed statewide in 2015 was 2,774.

ARREST DATA

ARREST DATA

Primarily a gauge of law enforcement's response to crime, arrest counts also provide definitive data concerning the age, sex, race and ethnicity of perpetrators. Arrest practices, policies and enforcement emphases vary from place to place and even within a community from time to time. While the practices for certain unlawful conduct such as drunkenness, disorderly conduct, vagrancy and related violations may differ among agencies, those for robbery, burglary and other serious crime arrests are more likely to be uniform and consistent throughout all jurisdictions. The UCR Program procedures require that an arrest be counted on each separate occasion a person is taken into custody, summoned or cited. Annual arrest figures do not measure the number of individuals arrested since one person may be arrested several times during the year for the same or different offenses. For UCR purposes, a juvenile is counted as "arrested" when the circumstances are such that if he or she were an adult an arrest would result, but in fact, there may not have been a formal charge.

Nevada law enforcement reports to UCR in 2015 indicated a total arrest figure of 116,121, down from the 2014 figure of 122,895. The arrest rate per 1,000 in population for the state was 40.43.

Note that the FBI Uniform Crime Reporting program recently expanded their Race and Ethnicity definitions. Nevada law enforcement agencies have begun to collect this expanded data; however, it is still incomplete. Therefore, the total number of persons arrested will not match the total number of Races and Ethnicities reported.

Definitions

The following report will describe and summarize temporary and extended protection orders issued in the State of Nevada. These reports are broken down to show which orders were granted to men and to women. Also included is a listing of those orders that included custody of a minor child and available historic data.

The information contained in this report was gathered using a different methodology than in previous years. Previously the data presented was an aggregate of all protection orders issued including all modifications they may have undergone. However, the new methodology aggregates the total number of Temporary Protection Orders and Extended Protection Orders issued per person. This results in a much lower figure than reported in previous years. For reference, the new methodology has been used to supply historical data from 2010 through 2013 for comparison.

Definitions:

Temporary Protection Orders:

Can be granted within 24 hours of receiving the application and in effect up to 30 days or until scheduled court hearing.

Extended Protection Orders:

Awarded only after a hearing before a judge and in effect for up to one year.

Expired Order:

A Temporary Protection Order or Extended Protection Order that has reached the expiration date and was not extended further.

Vacated Order:

A Temporary Protection Order or Extended Protection Order that was cancelled or dissolved prior to the expiration date.

Any of the above orders can also include a grant of temporary custody of a minor child.

Note that on the graphs you will see gender described as male, female, and unknown. Unknown includes those who entered unknown on the application, or those that did not complete the gender portion of the application.

In Nevada, only Protection Orders granted due to Domestic Violence or Domestic Battery are entered into the state Criminal Justice Information System; therefore, these reports do not include any Protection Orders issued for any other reason (i.e. Stalking, Harassment, etc.).

2015 DOMESTIC VIOLENCE DATA

The Domestic Violence data presented here is collected per the requirements set forth in Nevada Revised Statute 171.1227.

NRS 171.1227 Peace officer to submit written report concerning suspected acts of domestic violence; information from reports to be aggregated and forwarded to Central Repository; content of report.

- 1. If a peace officer investigates an act that constitutes domestic violence pursuant to NRS 33.018, the peace officer shall prepare and submit a written report of the investigation to the peace officer's supervisor or to another person designated by the peace officer's supervisor, regardless of whether the peace officer makes an arrest.
- 2. If the peace officer investigates a mutual battery that constitutes domestic violence pursuant to NRS 33.018 and finds that one of the persons involved was the primary physical aggressor, the peace officer shall include in the report:
- (a) The name of the person who was the primary physical aggressor; and
- (b) A description of the evidence which supports the peace officer's finding.
- 3. If the peace officer does not make an arrest, the peace officer shall include in the report the reason the peace officer did not do so.
- 4. The information contained in a report made pursuant to subsections 1 and 2 must be:
 - (a) Aggregated each month; and
- (b) Forwarded by each jurisdiction to the Central Repository for Nevada Records of Criminal History not later than the 15th day of the following month.
- 5. The Director of the Department of Public Safety shall prescribe the form on which the information described in subsection 4 must be reported to the Central Repository. In addition to the information required pursuant to subsections 1 and 2, the form must also require the inclusion of the following information from each report:
 - (a) The gender, age and race of the persons involved;
 - (b) The relationship of the persons involved;
 - (c) The date and time of day of the offense;
 - (d) The number of children present, if any, at the time of the offense;
 - (e) Whether or not an order for protection against domestic violence was in effect at the time of the offense;
 - (f) Whether or not any weapons were used during the commission of the offense;
 - (g) Whether or not any person required medical attention;
- (h) Whether or not any person was given a domestic violence card that contains information about appropriate counseling or other supportive services available in the community in which that person resides;
- (i) Whether or not the primary physical aggressor, if identified, was arrested and, if not, any mitigating circumstances explaining why an arrest was not made; and
 - (j) Whether or not any other person was arrested. (Added to NRS by 1997, 1533; A 2007, 2482)

Please note that the collection of Race and Ethnicity data for incidents of Domestic Violence is a relatively new addition. Nevada law enforcement agencies have begun to collect this expanded data; however, it is still incomplete. Therefore, the total number of offenders or victims will not necessarily match the total number of races or ethnicities reported. Possible ethnicities are either Hispanic or Non-Hispanic. For the majority of people of Hispanic Ethnicity their Race is White.

The following statistics are provided to the Department of Public Safety from the Nevada Department of Aging and Disability Services. The information provided comes from the Aging and Disability Service's Elder Protective Services Unit and local law enforcement. These figures are published exactly as Aging and Disability Services presents them to the Department of Public Safety. Totals in the various categories may not match because of the almost unlimited variations of number of offenders for each victim, possible multiple victims for each offense, and the possibility that one victim could have sustained multiple types of abuse.

2015 JUSTIFIABLE HOMICIDES

Justifiable homicide is defined by the FBI Uniform Crime Reporting program as the killing of a felon by a peace officer in the line of duty or the killing of a felon, during the commission of a felony, by a private citizen.

Justifiable homicide is not a crime, but statistics are collected in an effort to gain information about the necessary use-of-force by police and private citizens.

In 2015, Nevada had 25 justifiable homicides.
