Appreciation for Support

2017 Reporting Agencies

The success of the Nevada Uniform Crime Reporting Program hinges on the complete, accurate and timely participation of all of Nevada's law enforcement agencies. The program was established with the support of criminal justice and law enforcement agencies statewide in July of 1991 (NRS 179A.078).

Although responsibility for actual development and execution of the program was vested in the Nevada Department of Public Safety, the individuals at the municipal, county and state levels who submit the raw data are the entities ultimately critical to its viability and success. Accordingly, we recognize the following dedicated people.

(Added to NRS by 1991, 824; A 1993, 362; 1997, 454; 2005, 903)

NRS 179A.075: Creation; duties of agencies of criminal justice and certain other agencies; duties and powers of General Services Division of Department and Central Repository.

Mandates the reporting of criminal justice statistics to the Central Repository, the submission of that data to the Federal Bureau of Investigation and publication of these statistics on the internet.

Subsection 2:

Each agency of criminal justice and any other agency dealing with crime or delinquency of children shall:

- a. Collect and maintain records, reports and compilations of statistical data required by the Department;

2017 Crime in Nevada

Introduction to UCR

The **Uniform Crime Reporting (UCR)** program is a nationwide cooperative effort of over 18,000 city, county, and state law enforcement agencies reporting data on crime. The monthly contributions to Nevada's current program, with over 40 local law enforcement agencies reporting, represent a solid beginning to establishing an effective statewide Criminal Justice Information System (CJIS). We invite non-participating law enforcement agencies in Nevada to join their peers in this effort to provide comprehensive crime statistics in Nevada.

Inquiries concerning Uniform Crime Reporting may be directed to:

Department of Public Safety
Records, Communications and Compliance Division
Uniform Crime Reporting

Carson City, NV 89706
(775) 684-6262
ucr@dps.state.nv.us

Ideally, UCR data will eventually merge with that of the other major components of the criminal justice system (i.e., prosecutors, courts, and corrections) to form an integrated system for the exchange of vital management information. The availability of such data will enhance law enforcement's proactive response to crime and justice in Nevada. The Department of Public Safety administers the UCR Program as a statewide, standardized method of collecting statistics on crime as it is reported to law enforcement. The UCR program produces a reliable set of crime statistics for use in law enforcement administration, operation, and management. Additionally, Nevada's statistics are forwarded monthly to the FBI for inclusion in its annual report *Crime in the United States*.

We hope UCR data will be used over the years as a leading social indicator. With this annual report, Nevada's citizens can look to the UCR program as the primary information source for understanding the nature and extent of crime occurring in the state. Criminologists, sociologists, legislators, state and local planners, the media, and academicians can benefit from these statistics in various ways. *The National Academies Press* reports that the uses of crime data include operation and resource allocation decisions by law enforcement, local and state government agencies, and the public and private sectors.²

Things to consider when reporting crimes:

- Crime Factors
- Potential Uses of UCR Data
- Reporting Procedure
- Hierarchy Rule
- Verification Procedure

Crime Factors to Consider

Statistics gathered under the UCR Program are submitted by the participating law enforcement agencies of Nevada and represent a spectrum of crime on statewide, county, and municipal levels. Awareness of the presence of unique variables is necessary if fair and equitable conclusions are to be drawn. These crime-influencing factors are present, to some degree, in every community and their presence affects, in varying degrees, how crime develops. Comparison of crime figures between communities should not be made without first considering individual factors present in each area. Crime, as an outgrowth of society, remains a social problem of grave concern and the police are limited in their role as to its detection and suppression.

Following are some conditions that will, by type and frequency, affect crime that occurs from place to place.

- Size and density of community population and the degree of urbanization in the surrounding area
- Compositions of population with particular reference to youth concentration
- Economic status of population, median income and job availability
- Relative stability of population, including commuters, seasonal, and other transient types
- Modes of transportation and area highway systems
- Climate, including seasonal weather conditions
- Cultural conditions such as educational, recreational, and religious characteristics
- Standards governing appointments to the police force
- Policies of prosecuting officials, the courts, correctional and parole/probation officials
- Effective strength of law enforcement agencies
- Attitude of the public toward reporting crime and participation in the prosecution of offenders
- The administrative and investigative efficiency of local law enforcement agencies, including the degree of adherence to crime reporting standards
- Organization and cooperation of adjoining and overlapping police jurisdictions

The primary goal of the UCR program is to identify crime and related problems. Statistics in this publication should not be used to measure or to evaluate workloads and results of individual contributing departments. While most police agencies are collectively viewed as crime-fighting units, considerable independent research shows only a small portion of the workload of many departments is spent fighting crime. Because of other assigned duties, the peculiar cycle of crime and clearances, and different community factors that normally affect crime statistics, no conclusions regarding individual departments should be made without consulting directly with the agency being analyzed.

Crime rates in this publication are based on the resident population of the state per the United States Census current population estimates³ and its subdivisions as established and published by the Nevada State Demographer⁴. Population estimates are revised annually. Seasonal population figures are too inaccurate and fluctuate too rapidly to be used in the determination of crime rates. Most Nevada communities experience rather wide seasonal population fluctuations due to the nature of the state's major industries, gaming and tourism. Accordingly, actual crime rates reported here, calculated per thousand population, may appear higher than might be expected for a community of comparable size without substantial fluctuations. This should not deter police administrators from using the data for planning and administrative purposes. Local seasonal population data is available which can be utilized for further statistical refinements.

Additionally, readers are cautioned not to make direct comparisons between crime rates reported for Nevada communities and those of communities of similar size in other states without first carefully analyzing and applying local modifying factors.

Potential Uses of UCR Data

The Nevada program is unique among similar state programs as it is dedicated to doing more than just gathering statistics. The program is dedicated to providing statistical support services to its contributors and to producing a variety of reports, or crime profiles, on an as-needed basis. These crime profiles will set the stage for extensive use of the data by police administrators and other criminal justice agencies.

Persons reading this report may ask, "How good are Uniform Crime Reports and how can they be used?" Initial responses that come to mind may be limited, but as the information is examined more closely, many and varied uses are discovered. Foremost is keeping the public informed as to the volume and nature of crime, which they may judge and act accordingly. In actuality, UCR is a multi-faceted vehicle of many uses. Here are a few, but by no means all such uses, as they relate to different groups and agencies.

Law Enforcement Contributors

Administrative information relating to:

- Budget need and justification
- Staffing number needed relating to state average number of employees vs. population and crime rate
- Department composition Patrol, Administration, Jail, Laboratory, Detective Division, Juvenile
- Identification of specific problem crimes
- Disbursement of personnel and shifts in accordance with the crime picture of individual communities with avoidance of duplication of services in cases of concurrent jurisdiction
- Training according to crime problem prioritization
- Equipment procurement by justified need
- Selective enforcement by crime volume, particular times, and seasons through UCR information
- Crime Profiles identification of problems unique to individual communities
- Long-range Planning as anticipated by crime trends

Governor and Legislature

- Broad, accurate picture of crime in Nevada by location, frequency, type, and rate, as reported and derived from records of all participating enforcement agencies
- Guide to validate funding needs of special interest groups and their requests for funding of the same
- Need for more or fewer specialized programs
- Identification of crime trends and their relationship(s) to training, courts, corrections, and other criminal justice agencies
- Identification of various social problems relating to drugs, alcohol and rehabilitation
- Effectiveness of various social programs related to drugs, alcohol and rehabilitation

Courts - Prosecution

- Valuable general research information on crimes within the areas being served
- Crime trend information
- Identification of specific crimes to be considered in the prosecutorial and judicial processes

Potential Uses of UCR Data

Media Groups

A factual source for use in reporting crime and socially-related problems

Social Agencies

- Identification of problem areas for concentration of remedial activities
- Application for general evaluation of program effectiveness

Educational Institutions

Educators at all levels can use UCR data for various studies, budget preparation, and planning.

The above listed are a few possible uses; undoubtedly, many more exist. The larger the UCR database becomes, the clearer its value will become. Since effective problem solving begins with problem identification, UCR will continue to be meaningful for years to come.

Nevada UCR believes the data provided herein can serve as a catalyst for some departments to establish modern record systems for the first time. With other agencies it may spur needed system upgrades. This will enable administrators at the chief and sheriff levels to be able to take a renewed look at their departments, potentially effecting beneficial internal operational changes. Awareness by subordinate personnel that their reports and arrest information are being used, not just filed, will result in better and more comprehensive reporting. Finally, the periodic release of crime information to the general public will keep the crime problem in its proper perspective. According to Joan Petersillia, faculty co-director of the Stanford Criminal Justice Center, "Ultimately, the goal is that we be able to take data from all points along the criminal justice system in order to assess the impact of what we do with the criminal justice system. allowing us to find the programs and practices that create the best possible public outcomes."5

Reporting Procedures

In Nevada's UCR program, contributing law enforcement agencies are wholly responsible for compiling their own crime reports and submitting them to the Uniform Crime Reporting unit of the Records, Communication and Compliance Division in Carson City. The UCR Program, to maintain data quality and uniformity, furnishes to the contributing agencies continuous training and instruction in Uniform Crime Reporting procedures. All contributors are also given data submission guidelines, report forms, and a UCR Guide furnished by the FBI that outlines, in detail, procedures to score and to classify offenses. The guide illustrates and discusses the monthly and annual report forms.

A centralized record system is vital to the sound operation of any law enforcement agency. It is an essential element for crime reporting. Trained UCR personnel at the state level assist contributors in following established reporting procedures.

Law enforcement agencies (state, county and municipal) report the number of offenses that become known to them in the following index crime categories:

VIOLENT CRIME	Categorized by:
Criminal Homicide	Murder and Non-Negligent Manslaughter
	Manslaughter by Negligence
Rape	Rape
	Attempts to commit rape

Reporting Procedures CONT.

In addition, the agencies submit the number of arrests recorded by sex, age, race and ethnicity for 21 other "Part II" offenses. Descriptions of these offenses are provided under the offense classification section of this publication.

Another facet of the UCR program involves the collection of hate crimes. In 1990, President Bush signed into law the "Hate Crime Statistics Act of 1990". In October 2009, the Matthew Shepard and James Byrd, Jr. Hate Crimes Prevention Act (HCPA), also known as Matthew Shepard Act, amended the Hate Crime Statistics Act. The data now identifies crimes that manifest evidence of prejudice based on race, religion, disability, sexual orientation, ethnicity, gender, or gender identity.

Whenever complaints of crime are determined through investigation to be unfounded or false, they are subtracted from the actual count. The number of "actual offenses known" in these crime categories is reported to the Nevada UCR Unit whether or not anyone is arrested for the crime; the stolen property is recovered; prosecution is undertaken; or any other restrictive consideration is in effect.

Other data configurations which contributing agencies tally through the UCR system are as follows:

Number of crimes cleared by arrest or exceptional means

- o Clearances involving persons under age 18
 - Number of arrests for all criminal acts (except traffic violations), categorized by arrestee age, sex, ethnicity and race

Number of law enforcement officers killed or assaulted

- Number of sworn and civilian enforcement personnel employed by agency type
- Assaults categorized by type of call, time of day, and weapons used

Property stolen and recovered

Type and value of property

Simple Assault

Non-aggravated offenses that involved hands, fists, and/or feet

Human Trafficking

o Offenses categorized by commercial or involuntary servitude

Justifiable Homicide

o Offenses categorized by felon's age range and type of person who performed the killing.

Protection Orders

o Orders granted by gender, custody of a minor, served, and expired

Domestic Violence

 Number of offenses committed, victim / offender classification by gender and relationship, time of day, and weapons used

Crimes Against Older Persons

- Offenses categorized by type of abuse
- o Aging & Disability Services Elderly Abuse Report
 - Abuse categorized by substantiated/ unsubstantiated, victim's gender, race, age, type of residence, and type of abuse

Hierarchy / Verification

Hierarchy Rule:

There is a significance to the order in which the Part I offenses are presented. In cases where more than one offense occurs in an incident, only the highest ranking Part I offense is counted. Three offenses, Arson, Human Trafficking—Commercial Sex Acts, and Human Trafficking—Involuntary Servitude, ignore the Hierarchy Rule and are always counted even in cases when multiple offenses occur in an incident. The Hierarchy Rule, which requires counting only the highest offense on the list and ignoring all others, applies only to crime reporting and does not affect the number of charges for which the defendant may be prosecuted in the courts.

Verification Procedure:

Data uniformity and accuracy is of primary concern under this program. With coverage of over 45 reporting jurisdictions within the State of Nevada, the problems with attaining uniformity are apparent. Issuance of instructions and training of personnel within contributing agencies does not complete the role of the UCR Unit. It is standard operating procedure to examine each incoming report for mathematical accuracy and completeness.

Clearance factors, recovery rates, and other elements are scrutinized and changes are suggested to the contributors where needed. In the instance of minor mathematical corrections, the contributing agency is either contacted by mail, fax, telephone, e-mail or in-person visitations made by qualified UCR Program personnel.

The possibility of report duplication requires constant verification through internal consistency checks. If duplication is suspected, the contributing agency is immediately contacted and the matter is resolved in accordance with guidelines. Continual analysis of reports is ongoing to assist contributors, and to maintain the quality necessary for a factual and successful program. In addition, an FBI Quality Assurance Group periodically visits contributors to cooperatively assist in necessary auditing of records and reporting methods.

Regardless of the extent of the quality control process employed by the Uniform Crime Reporting Unit, the accuracy of the data assembled under this program depends on the sincere effort exerted by each contributor to meet the necessary standards of reporting. We are especially grateful to the UCR support staff in each contributing agency for their diligence and persistence, and for their constant attention to reporting policies and procedures.

Classification of Offenses

Uniformity in reporting under the Federal Bureau of Investigation's Uniform Crime Reporting Program is based on the proper classification of offenses reported to or known by the police. The adoption of the National System of Uniform Crime Reporting includes the utilization of the offense classifications of that system. Law enforcement in this state has made accurate application of those classifications in the reports submitted to the Nevada Uniform Crime Reporting Program. In view of the need for compatibility with the National System, "offenses" under the program are not distinguished by designation of "misdemeanors", "felonies" or violations of municipal ordinances. The explanations of offense classifications may vary slightly from language used by those familiar with Nevada State Law. However, the major categories of offense classification remain the same between the national and state level.

The following definitions are per the FBI's *Criminal Justice Information Services Division Uniform Crime Reporting Program Summary Reporting System User Manual* (V. 1.0, dated 6/20/2013)⁶.

PART I OFFENSES

Offense data consists of information that has been extracted from reports of Part I crimes that have come to the attention of Nevada Law Enforcement Agencies. Part I crimes are comprised of the following offenses.

1. CRIMINAL HOMICIDE

- a. Murder and Non-Negligent Manslaughter The willful (non-negligent) killing of one human being by another.
 - ** Includes any death due to a fight, quarrel, argument, assault or commission of a crime.
- b. Manslaughter by Negligence The killing of another person through gross negligence.
 ** Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included.

2. RAPE

<u>Note</u>: In 2011, the FBI UCR Program revised the definition of rape for reporting purposes. As the offense is now defined, it is possible to report either males or females as rape victims. The former (historical) definition used for rape was: The carnal knowledge of a female forcibly and against her will.

- a. Rape Completed: Penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim.
- b. Rape Attempts to Commit Rape: Assaults and attempts to rape.

3.

The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force of threat of force or violence and/or by putting the victim in fear. Includes all attempts.

- a. Gun Includes robberies and attempts in which any firearm is used as a weapon or employed as a means of force to threaten the victim or put the victim in fear. Attempts are included.
- b. Knife or Cutting Instrument Includes robberies and attempts in which a knife, broken bottle, razor, ice pick, or other cutting or stabbing instrument is employed as a weapon or as a means of force to threaten the victim or put the victim in fear. Attempts are included.
- c. Other Dangerous Weapon Includes robberies in which a club, acid, explosive, brass knuckles, Mace®, pepper spray, stun guns, Tasers®, or other dangerous weapon is employed or its use is threatened. Attempts are included.
- d. Strong Arm-Hands, Fists, Feet, etc. Includes muggings and similar offenses in which only personal weapons such as hands, arms, feet, fists and teeth are employed or their use is threatened to deprive the victim of possessions. Attempts are included.

4. AGGRAVATED ASSAULT

An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm.

All assaults will be classified in the following categories excluding assaults with intent to rob or rape.

- a. Firearm Includes all assaults and attempted assaults involving the use of any type of firearm (revolvers, automatic pistols, shotguns, zip guns, etc.)
- b. Knife or Cutting Instrument Includes assaults wherein weapons such as knives, razors, hatchets, axes, cleavers, scissors, glass, broken bottles, arrows, and ice picks are used as cutting or stabbing objects or their use is threatened.
- c. Other Dangerous Weapon Includes assaults resulting from the use or threatened use of any object as a weapon in which serious injury does or could result. The weapons in this category include, but are not limited to, Mace®, pepper spray, clubs, bricks, jack handles, tire irons, bottles, or other blunt instruments used to club or beat victims. Attacks by explosives, acid, lye, poison, scalding, burnings, BB guns, pellet guns, Tasers®, stun guns, etc. are also included in this category.
- d. Hands, Fist, Feet, Etc. (Aggravated Injury) includes only the attacks using personal weapons such as hands, arms, feet, fists, and teeth, that result in serious or aggravated injury. Reporting agencies are to consider the seriousness of the injury as the primary factor in establishing whether the assault is aggravated or simple. The assault is aggravated if the personal injury is serious, for example, there are broken bones, internal injuries, or stitches required. Conversely, the offense is considered simple assault if the injuries are not serious (abrasions, minor lacerations, or contusions) and require no more than usual first-aid treatment.

BURGLARY

Breaking and Entering - Unlawful entry of a structure to commit a felony or theft.

Note: For Uniform Crime Reporting purposes the terms "Burglary" and "Breaking and Entering" are considered synonymous. All such offenses and attempts are scored as burglary. Breaking and Entering of a motor vehicle is classified as a larceny for Uniform Crime Reporting purposes.

The UCR Program classifies offenses locally known as burglary (any degree), unlawful entry with intent to commit a larceny or felony, breaking and entering with intent to commit a larceny, housebreaking, safecracking, and all attempts at these offenses as burglary.

- a. Forcible Entry All offenses where force of any kind is used to unlawfully enter a structure for the purpose of committing a theft or felony. This definition applies when a thief gains entry by using tools, breaking windows, forcing windows, doors, transoms, or ventilators, cutting screens, walls, or roofs, and where known, using master keys, picks, unauthorized keys, celluloid, a mechanical contrivance of any kind (e.g., a passkey or skeleton key), or other devices that leave no outward mark but are used to force a lock. Agencies also include burglary by concealment inside a building followed by exiting the structure as burglary.
- b. Unlawful Entry No Force All offenses when access is achieved by use of an unlocked door or window. The element of trespass to the structure is essential in this category, which includes thefts from open garages, open warehouses, open or unlocked dwellings, and open or unlocked common basement areas in apartment houses where entry is achieved by other than the tenant who has lawful access. Any unlawful entry without any evidence of forcible entry.
- c. Attempted Forcible Entry This category includes those situations where a forcible entry burglary is attempted but unlawful entry is not achieved.

6. LARCENY-THEFT (except motor vehicle theft)

The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another.

Includes all larcenies and thefts resulting from pocket-picking, purse-snatching, shoplifting, larceny from a motor vehicle, larceny of motor vehicle parts and accessories, theft of bicycles, larceny from buildings, and from coin-operated machines.

7. MOTOR VEHICLE THEFT

The theft or attempted theft of a motor vehicle.

This classification includes the theft or attempted theft of a motor vehicle which, for Uniform Crime Reporting designation, is described as a self-propelled vehicle that runs on the surface of the land and not on rails. Excludes reported offenses where there is a lawful access to the vehicle, such as a family situation or unauthorized use by others with lawful access to the vehicle (chauffeur, employees, etc.). Includes "Joy Riding." Excluded from this category are airplanes, boats, farm equipment and heavy construction vehicles. which are scored in the larceny category.

8. **ARSON**

Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Arson reports are broken down into Structural, Mobile and Other,

- a. Structural A permanently fixed house trailer or mobile unit used as an office, residence, or storehouse is considered structural property. Can be residential or non-residential.
- b. Mobile Motor vehicles and other mobile property such as trailers, airplanes, boats, etc.
- c. Other Property such as crops, timber, fences, signs, and merchandise stored outside structures.

9. **HUMAN TRAFFICKING**

A form of human slavery which includes forced labor, domestic servitude, and commercial sex trafficking.

- a. Commercial Sex Acts: Inducing a person by force, fraud, or coercion to participate in commercial sex acts, or in which the person induced to perform such act(s) has not attained 18 years of age.
- b. Involuntary Servitude: The obtaining of a person(s) through recruitment, harboring, transportation, or provision, and subjecting such persons by force, fraud, or coercion into involuntary servitude, peonage, debt bondage, or slavery (not to include commercial sex acts).

The Part II offenses encompass all other crime classifications outside of those defined as Part I offenses.

In November 1932 the national UCR Program adopted a Standard Classification of Offenses for the compilation of criminal statistics. This classification was devised and adopted in order that law enforcement, judicial and penal statistics might be uniformly compiled in terms of a single classification of offenses. The definitions of the Part II offenses that follow include some of the offense titles described in Nevada Revised Statutes and in county or municipal code. These titles have been included as descriptive data to aid in determining the offenses that are included or excluded from each classification.

1. OTHER ASSAULTS - SIMPLE, NOT AGGRAVATED

Includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim did not sustain serious or aggravated injuries.

Examples of local jurisdiction offense titles that would be included in "other assaults" are:

- a. Culpable negligence
- b. Intimidation
- c. Coercion
- d. Stalking
- e. Hazing
- f. Resisting or obstructing an officer
- g. Minor assault
- h. Attempts to commit any of the above

This class is limited to "suspicion" arrests where persons arrested are released by police.

Calculation of Rates

The **Uniform Crime Reporting Program** provides data for police executives to measure local problems. To facilitate this function, local data must be converted into terms of rates and percentages. Simple formulas are displayed here which may assist in these computations.

CRIME RATES

One of the most meaningful crime statistics is the crime rate. This is the number of offenses per 1,000 inhabitants. This rate can be calculated for any city, town or county.

To compute crime rates, divide the community population by 1,000 and divide the number of offenses in each class by that number. The answer is the crime rate, the number of offenses per 1,000 population, for that particular offense.

Example:

a. Population: 75,000

Population per 1,000 inhabitants: $75,000 \div 1,000 = 75.0$

b. Number of burglaries: 215

c. Crime Rate: $\frac{\# of \ offenses}{Population \ per \ 1,000} = \frac{215}{75} = 2.87$ burglaries per 1,000 population

CLEARANCE RATES

The percentage of crimes cleared is obtained by dividing the number of offenses cleared by the number of offenses known then multiplied by 100%.

Example:

- a. Number of clearances in robbery: 38
- b. Number of total robberies: 72
- c. Clearance Rate: $\frac{\# \ of \ clerances}{Total \# \ of \ Offenses} = \frac{38}{72} * 100\% = 52.8\%$ of total robberies cleared

CRIME TREND DATA

Local agencies can compute crime trends for a given offense for their individual agency for a particular period of time.

Example:

- a. Auto thefts in your jurisdiction for July through December last year numbered 21.
- b. Auto thefts in your jurisdiction for July through December this year numbered 29.
- c. Percentage of Change: difference between occurrences divided by number of occurrences from prior year multiplied by 100%.

$$\frac{\textit{this year} - \textit{last year}}{\textit{last year}} * 100\% \qquad \qquad \frac{29 - 21}{21} * 100\% = \textbf{38.1\% increase from last year}$$

POLICE EMPLOYEE DATA

Police employee rates are expressed as the number of employees per 1,000 population. To compute this rate, divide the population by 1,000 and divide the number of enforcement employees by this number.

Example:

- a. Your jurisdiction's population: 75,000Population per 1,000 inhabitants: $75,000 \div 1,000 = 75.0$
- b. Your agency's number of employees: 102
- c. Employee Rate: $\frac{\text{# of employees}}{Population per 1,000} = \frac{102}{75} = 1.36$ employees per 1,000 population

Profile of State of Nevada

This profile is presented to provide some general knowledge and facts about the State of Nevada. The information might assist users of this publication in understanding the environment in which reported crime incidents and arrest data occurred.

NEVADA FACTS AND FIGURES

Nevada is the seventh largest state in the United States by virtue of its vast land mass, with land area covering 110,540 square miles.¹⁷ The state's long western border is shared with California, the most populous state in the Union⁸. On its northern and eastern borders are the states of Oregon, Idaho, Utah, and Arizona. Nevada is the home to the Hoover Dam, which was the single largest public works project in the history of the United States, and Lake Mead, the largest reservoir in the country.¹²

Nevada consists of seventeen counties, ranging in size from 157 square miles for the state capitol of Carson City to 18,199 square miles for Nye County, one of the largest counties in the United States.⁹

The geography of the state consists of rugged desert and mountain terrain, with the highest mountain peak (Boundary Peak in Esmeralda County) having an elevation of 13,140 feet above sea level and the lowest point on the Colorado River near its border with California and Arizona having an elevation of 479 feet⁷.

Nevada has a four-season climate, with wide variations between its northern and southern latitudes. Low temperatures in the north can go well below zero in the winter months, while high temperatures in the south can climb over 100° Fahrenheit in the summer. It is the most arid state in the country, receiving an average of less than ten inches of precipitation annually.⁷

Of Nevada's total land area, approximately 87% is federally administered only 0.35% is under state government administration. Nearly 50 million of those acres are managed by the Bureau of Land Management (BLM), and the remaining 5 million acres is divided among various military installations, Native American reservations, wilderness areas and wildlife refuges. Nevada is the home to 26 federally recognized Native American Tribes located on 31 reservations and colonies. The wide-ranging public lands in Nevada give rise to many criminal and civil land management issues, such as grazing and water rights; trespass and right of way; Native American claims; resource protection; claims in defense of the environment; wild, free-roaming horses; safety of federal officers and state's rights.

Nevada's population increased by 54.4% between 1980 and 1990 (from 800,508 to 1,236,130), 67.1% from 1990 to 2000 (1,236,130 to 2,065,610) and 45.1% from 2000 to 2017 (2,065,610 to 2,998,039) positioning Nevada among the second fastest growing states in 2017 with a 1-year population growth rate of 2.0%. ¹³

Due to these tremendous long-term increases, several communities have been hard-pressed to provide necessary infrastructures. Despite this growth, Nevada remains one of the most sparsely populated states, with about 27 people per square mile.

Fully 90.71% of the state's total population is located in the counties of Clark (2,204,079-73.52%), Washoe (460,587-15.36%) and Carson City (54,745-1.83%).

Tourism and gaming are the state's largest industries. The gaming industry generated revenue of \$11,571,114,000 in 2017, up 2.79% from 2016 when the revenue was \$11,257,147,000.14

2017 State Demographics

About Index Crimes

For Uniform Crime Reporting purposes, an index crime is defined by the total number of Part I, violent and property, crime offenses. The FBI defines these crimes as follows¹³:

Violent crime is composed of four offenses: murder and nonnegligent manslaughter, forcible rape, robbery, and aggravated assault. Violent crimes are defined in the UCR Program as those offenses which involve force or threat of force.

Property crime includes the offenses of burglary, larceny-theft, motor vehicle theft, and arson. The object of the theft-type offenses is the taking of money or property, but there is no force or threat of force against the victims.

Criminal homicide: a.) Murder and nonnegligent manslaughter: the willful (nonnegligent) killing of one human being by another. Deaths caused by negligence, attempts to kill, assaults to kill, suicides, and accidental deaths are excluded. The program classifies justifiable homicides separately and limits the definition to: (1) the killing of a felon by a law enforcement officer in the line of duty; or (2) the killing of a felon, during the commission of a felony, by a private citizen. b.) Manslaughter by negligence: the killing of another person through gross negligence. Deaths of persons due to their own negligence, accidental deaths not resulting from gross negligence, and traffic fatalities are not included in the category Manslaughter by Negligence.

Rape: penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, without the consent of the victim. Attempts or assaults to commit rape are also included; however, statutory rape and incest are excluded.

Robbery: The taking or attempting to take anything of value from the care, custody, or control of a person or persons by force or threat of force or violence and/or by putting the victim in fear.

Aggravated assault: An unlawful attack by one person upon another for the purpose of inflicting severe or aggravated bodily injury. This type of assault usually is accompanied by the use of a weapon or by means likely to produce death or great bodily harm. Simple assaults are excluded.

Burglary (breaking or entering): The unlawful entry of a structure to commit a felony or a theft. Attempted forcible entry is included.

Larceny-theft (except motor vehicle theft): The unlawful taking, carrying, leading, or riding away of property from the possession or constructive possession of another. Examples are thefts of bicycles, motor vehicle parts and accessories, shoplifting, pickpocketing, or the stealing of any property or article that is not taken by force and violence or by fraud. Attempted larcenies are included. Embezzlement, confidence games, forgery, check fraud, etc., are excluded.

Motor vehicle theft: The theft or attempted theft of a motor vehicle. A motor vehicle is self-propelled and runs on land surface and not on rails. Motorboats, construction equipment, airplanes, and farming equipment are specifically excluded from this category.

Arson: Any willful or malicious burning or attempt to burn, with or without intent to defraud, a dwelling house, public building, motor vehicle or aircraft, personal property of another, etc. Arson statistics are not included in this table-building tool.

About Clearance Rates

For Uniform Crime Reporting purposes, a crime index offense is cleared when a law enforcement agency has identified the offender, there is enough evidence to charge and the offender is actually taken into custody. The arrest of one person can clear several crimes, or several persons may be arrested in the process of clearing one crime.

Crime clearances are also recorded in exceptional circumstances when some elements beyond law enforcement control preclude formal charges against the offender. An offense may be exceptionally cleared when it falls into one of the following categories:

- The offender commits suicide.
- 2. A double murder occurs (two persons kill each other).
- 3. The offender dies after making a confession (dying declaration).
- 4. The offender is killed by law enforcement officers.
- 5. The offender confesses to committing a crime while already in custody for another crime or serving a sentence for another crime.
- 6. The offender is prosecuted in another city for a different crime or the same crime by federal, state or local authorities, and the other jurisdiction refuses to release the offender.
- 7. Another jurisdiction refuses to extradite the offender.
- 8. The victim of a crime refuses to cooperate in the prosecution.
- 9. The offender is prosecuted for a less serious charge than the one for which he was arrested.
- 10. The offender is a juvenile who is handled by a verbal or written notice to the parents in instances involving minor offenses such as petit or simple larceny.

Index Crime Offenses & Rates

5-yr Comparison: 2013 - 2017

The figures displayed here represent the latest five calendar-years of data collection and compilation under the state-run Nevada UCR Program. Over 45 agencies are currently reporting UCR data, covering 99% of the state's population.

Crime rates as they appear in this publication are per 1,000 population. No attempt is made to incorporate transient populations or other factors which contribute to the ratio and the types of crime in given areas. Any effort to make comparisons of crime rates between areas should be tempered by these population and environmental variables.

Violent Crimes in Nevada

5-yr Comparison: 2013 - 2017 & By Quarter vs Quarterly Average

Crimes of violence involve the element of personal confrontation between the perpetrator and victim and entail the threat or use of violence. By their very nature, violent crimes (murder, rape, robbery, aggravated assault and human trafficking) are considered more serious than property crimes. The total number indicates only the number of incidents reported to enforcement and does not reflect the number of criminals who committed them or the number of injuries inflicted.

About Murder

Murder and non-negligent manslaughter are defined by the FBI Uniform Crime Reporting program as the willful (non-negligent) killing of one human being by another. This includes any death caused by injuries received in a fight, argument, quarrel, assault, or commission of a crime. The UCR Program does not include the following situations in this offense classification: deaths caused by negligence, suicide, or accident; justifiable homicides; and attempts to murder or assaults to murder, which are classified as aggravated assaults.¹⁸

^{*}Due to the unlimited set of possible circumstances surrounding homicides, it is difficult to provide clear-cut or precise statistical categories for all. To achieve uniformity, the number of circumstance categories has been kept to a minimum. Caution is suggested in drawing generalizations from the data without more deliberate analysis. This table makes no attempt to analyze the motives of offenders, but rather to display general circumstances surrounding events. Also note that it is possible to have more than one victim/murder for each circumstance.

About Rape

NOTE: In 2011, the FBI UCR Program revised the definition of rape for reporting purposes. As the offense is now defined, it is possible to report either males or females as rape victims.

Rape - penetration, no matter how slight, of the vagina or anus with any body part or object, or oral penetration by a sex organ of another person, or by a sex-related object, without the consent of the victim. This definition includes either gender of victim or offender. This definition also includes instances in which the victim is incapable of giving consent because of temporary or permanent mental or physical incapacity (including due to the influence of drugs or alcohol) or because of age. Physical resistance is not required on the part of the victim to demonstrate lack of consent.

About Simple Assaults

Simple assault, as defined by the FBI Uniform Crime Reporting program, includes all assaults which do not involve the use of a firearm, knife, cutting instrument, or other dangerous weapon and in which the victim did not sustain serious or aggravated injuries. Agencies classify simple assault for offenses such as assault and battery, injury caused by culpable negligence, intimidation, coercion, and all attempts to commit these offenses. Under certain circumstances, offenses of disorderly conduct, domestic violence, or affray is classified as simple assault.

Not included in this class are aggravated assaults. Simple assaults are non-index offenses; therefore, they are not included in the total number of violent crimes committed in the calendar year. However, due to the pervasiveness of these assaults the Nevada UCR office felt it was important to publish these statistics.

About Stolen & Recovered Values

This value does not include the value of property damaged due to vandalism, malicious mischief or arson.

Supplementary reports relating to stolen and recovered property provide information on the estimated value of such property. Investigating officers have the obligation to assess the value of property stolen and recovered in each crime index offense. Officers are guided by the following instructions:

- 1. Use the fair market value for articles that are subject to depreciation because of wear and tear, age, or other factors that cause the value to decrease with use.
- 2. Use the cost to the merchant (wholesale cost) of goods stolen from retail establishments, warehouses, etc. In other words, use the dollar value representing the actual cash loss to the victim without any markup or profit added.
- 3. Use the victim's evaluation of items such as jewelry, watches, and other similar goods that decrease in value slightly or not at all with use or age.
- 4. Use the replacement cost or actual cash cost to the victim for new or almost new clothes, auto accessories, bicycles, etc.
- 5. Use common sense and good judgment to dictate a fair market value of the stolen items when the victim obviously exaggerates the value of stolen property for insurance or other purposes.

About Law Enforcement Personnel

The Uniform Crime Reporting Program in Nevada compiles the number of enforcement personnel statewide as of October 31 of each year. Included is the total number of sworn and civilian support personnel with each agency broken out by gender. Also provided in this section are ratios of police to population.

A wide variety of factors unique to different jurisdictions affect the number of employees utilized by various law enforcement agencies to enable them to fulfill their service requirements. Because of this, persons attempting to make comparisons of population/enforcement personnel ratios between agencies/jurisdictions should do so cautiously. The State of Nevada, especially, with highly transient and seasonal population variations, has enforcement requirements which differ from many other jurisdictions.

Full-time law enforcement officers include any sworn personnel that possess full arrest powers and carry a weapon. Their primary duties include responding to routine calls for police service, emergency situations, or crime scenes; performing routine patrol; rendering emergency services, enforcing criminal laws and traffic regulations; and investigating violations of criminal laws and traffic accidents. These employees' salaries are paid from law enforcement funds. In addition, correctional officers and police cadets are only included in the officer counts if they are sworn and possess full arrest powers.

Civilian counts are inclusive of all full-time employees of the agency, i.e., dispatchers, clerks, and meter attendants. These employees' salaries are paid from law enforcement funds. Furthermore, correctional officers or jailers that have no police or arrest powers outside the jail, are counted as civilians as long as their salaries are paid from the funds of the law enforcement agency.

About Justifiable Homicides

Justifiable homicide is defined by the FBI Uniform Crime Reporting program as the killing of a felon by a peace officer in the line of duty or the killing of a felon, during the commission of a felony, by a private citizen.

Justifiable homicide is not a crime, but statistics are collected in an effort to gain information about the necessary use-of-force by police and private citizens.

Protection Orders

Definitions

The following report will describe and summarize temporary and extended protection orders issued in the State of Nevada. These reports are broken down to show which orders were granted to men and to women. Also included is a listing of those orders that included custody of a minor child and available historic data.

The information contained in this report was gathered using a different methodology than in previous years. Previously the data presented was an aggregate of all protection orders issued including all modifications they may have undergone. However, the new methodology aggregates the total number of Temporary Protection Orders and Extended Protection Orders issued per person. This results in a much lower figure than reported in previous years. For reference, the new methodology has been used to supply historical data from 2010 through 2013 for comparison.

- **Temporary Protection Order:** Can be granted within 24 hours of receiving the application and in effect up to 30 days or until scheduled court hearing.
- Extended Protection Order: Awarded only after a hearing before a judge and in effect for up to one year.
- **Expired Order:** A Temporary Protection Order or Extended Protection Order that has reached the expiration date and was not extended further.
- Vacated Order: A Temporary Protection Order or Extended Protection Order that was cancelled or dissolved prior to the expiration date.

Any of the above orders can also include a grant of temporary custody of a minor child.

Note that on the graphs you will see gender described as male, female, and unknown. Unknown includes those who entered unknown on the application, or those that did not complete the gender portion of the application.

In Nevada, only Protection Orders granted due to Domestic Violence or Domestic Battery are entered into the state Criminal Justice Information System; therefore, these reports do not include any Protection Orders issued for any other reason (i.e. Stalking, Harassment, etc.).

About Aging & Disability Services

The following statistics are provided to the Department of Public Safety from the Nevada Department of Aging and Disability Services. The information provided comes from the Aging and Disability Service's Elder Protective Services Unit. Local law enforcement data collected by Aging & Disability Services is not taken into account in this publication due to duplication of data. Substantiated and unsubstantiated incidents reported are considered. These figures are published exactly as Aging and Disability Services presents them to the Department of Public Safety.

NRS 200.5093 Report of abuse, neglect, exploitation, isolation or abandonment of older person; voluntary and mandatory reports; investigation; penalty.

- 1. Any person who is described in subsection 4 and who, in a professional or occupational capacity, knows or has reasonable cause to believe that an older person has been abused, neglected, exploited, isolated or abandoned shall:
- (a) Except as otherwise provided in subsection 2, report the abuse, neglect, exploitation, isolation or abandonment of the older person to:
- (1) The local office of the Aging and Disability Services Division of the Department of Health and Human Services;
 - (2) A police department or sheriff's office; or
- (3) A toll-free telephone service designated by the Aging and Disability Services Division of the Department of Health and Human Services; and
- (b) Make such a report as soon as reasonably practicable but not later than 24 hours after the person knows or has reasonable cause to believe that the older person has been abused, neglected, exploited, isolated or abandoned.
- 2. If a person who is required to make a report pursuant to subsection 1 knows or has reasonable cause to believe that the abuse, neglect, exploitation, isolation or abandonment of the older person involves an act or omission of the Aging and Disability Services Division, another division of the Department of Health and Human Services or a law enforcement agency, the person shall make the report to an agency other than the one alleged to have committed the act or omission.
- 3. Each agency, after reducing a report to writing, shall forward a copy of the report to the Aging and Disability Services Division of the Department of Health and Human Services and the Unit for the Investigation and Prosecution of Crimes.

<u>Note</u>: Totals in the various categories may not match because of the variations of number of offenders for each victim, possible multiple victims for each offense, and the possibility that one victim could have sustained multiple types of abuse.
